Landscape Indicators Assessing And Monitoring Landscape Quality:

Landscape Indicators Claudia Cassatella,Attilia Peano,2011-01-28 In recent years EU policy towards the landscape has become better defined whereas at the same time the notion of landscape itself remains elusive The need for indicators to evaluate and monitor the effects of landscape policies and plans is urgent What is more landscape is one of the components considered in environmental reporting but unlike air soil or water it is difficult to measure using quantitative methods With studies on landscape indicators being as rare as they are this volume is an attempt to fill the gap dealing as it does with the definition and use of specific indicators for landscape assessment and monitoring To tackle the diverse dimensions of the landscape whose complexity is well known the subject is approached by a multidisciplinary team of experts in landscape ecology landscape history landscape perception regional planning strategic environmental assessment and environmental impact assessment procedures and multi criteria assessmentmethods Individual chapters include comparative assessments of studies conducted thus far in the EU as well as detailed analyses of ecological historical perceptive land use and economic ways of looking at landscape As well as providing a rich source of references for researchers studying the landscape from a variety of perspectives the book will be required reading for European officials involved at any level in planning or assessing the landscape or environment

Landscape Planning and Rural Development Carlo Rega,2014-05-20 This book aims to contribute to the current debate on how to integrate rural development policies and landscape planning in rural areas It highlights the key issues at stake and the possibilities for synergies between landscape planning and policies in light of European development policies particularly the EU s Rural Development Policy and the Common Agricultural Policy CAP Case studies from different rural contexts and landscapes are provided illustrating tools and options to make the advocated integration operational Recommendations and guidance to policy making are proposed The case studies presented cover 1 the use of visual assessment techniques to support landscape planning in rural areas 2 participative applications of landscape assessment techniques in peri urban areas 3 multi scale approaches to landscape management in Alpine areas and 4 the application of landscape economic evaluation to foster rural development strategies

Cultural Territorial Systems Francesco Rotondo,Francesco Selicato,Vera Marin,Josefina Lopez Galdeano,2016-04-19 This book seeks to enhance the cultural dimension of sustainable development and particularly focuses on minor historic centers and their natural and rural landscapes In a society becoming ever more globalized without territorial restrictions in the production of goods and able to reproduce in China the goods and product characteristic of South American crafts to mention just two extremes the only element that can still be contextualized is heritage identity the result of close integration between cultural assets intangible assets and settled communities Thus heritage identity is one of the few elements together with natural resources which has the potential for economic development that is still firmly rooted in places and local populations These towns are often the centerpiece of urban landscapes and geographical areas with original features not always but often as individual places

within networks of minor historical centers linked by shared history traditions and or natural elements rivers forests river systems or other natural elements They are outside the major tourist networks even if now there is a budding interest in the touristic exploitation of these environments So they are the right places to pursue a sustainable and local development with a cultural perspective This book is a product of the VIVA_EASTPART project Valorisation and Improving of management of Small Historic Centres in the eastern PARTnership region under the EU funded ENPI Eastern Partnership program It complements the more practically focused work that is in production from this group more focused on empirical approaches to the development of minor historic centers of the nations involved Though the book has been influenced by this research and working experience the authors are solely responsible for the content and opinions presented Landscape mosaics Council of Europe,2022-12-01 Landscape protection management and planning entail rights and responsibilities for everyone The Council of Europe Landscape Convention aims to promote the protection management and planning of landscapes and to organise international co operation in this field It applies to the entire territory of the contracting parties and covers natural rural urban and peri urban areas It concerns landscapes considered outstanding as well as everyday or degraded areas This publication presents thoughts and proposals for the implementation of the convention and addresses a mosaic of key issues related to its future It forms part of a process of reflection on major themes concerning the living environment Landscape Aa.Vv.,2013-12-27T23:00:00+01:00 EUROS CAPES project INTERREG IVC Program has the ambitious objective of offering a new management model for landscapes through the implementation of Landscapes Management Plans the objective is to rationalize practices protect and enhance landscapes in a coherent territorial and sustainable approach Landscapes Management Plans LMP are based on an environmental quality and economical approach in the maintenance and management of our natural and cultural landscapes They will integrate important education sensitization dimensions and take into account the territorial strategy and urban master plans The Italian and Spanish cases are focus on cultural and natural landscapes Upper Tuscany in Italy gives a complete methodological approach while Granollers in Spain carries out technical and operative solutions **Quality of Life in Urban Landscapes** Roberta Coccia, Rosalba D'Onofrio, Massimo Sargolini, 2017-12-14 This volume introduces an innovative tool for the development of sustainable cities and the promotion of the quality of life of city inhabitants It presents a decision support system to orient public administrations in identifying development scenarios for sustainable urban and territorial transformations The authors have split the volume into five parts which respectively describe the theoretical basis of the book the policies in question and indicators that influence them the decision support system that connects indicators to policies the case study of Ancona Italy and potential future directions for this work This volume is based on transdisciplinary research completed in May 2016 that involved about 40 researchers at The University of Camerino Italy and other European universities With purchase of this book readers will also have access to Electronic Supplementary Material that contains a database with groups of indicators

of assessment of urban quality of life and a toolkit containing the data processing system and management information system used in the book's case study **Computational Science and Its Applications - ICCSA 2017** Osvaldo Gervasi, Beniamino Murgante, Sanjay Misra, Giuseppe Borruso, Carmelo M. Torre, Ana Maria A.C. Rocha, David Taniar, Bernady O. Apduhan, Elena Stankova, Alfredo Cuzzocrea, 2017-07-13 The six volume set LNCS 10404 10409 constitutes the refereed proceedings of the 17th International Conference on Computational Science and Its Applications ICCSA 2017 held in Trieste Italy in July 2017. The 313 full papers and 12 short papers included in the 6 volume proceedings set were carefully reviewed and selected from 1052 submissions. Apart from the general tracks ICCSA 2017 included 43 international workshops in various areas of computational sciences ranging from computational science technologies to specific areas of computational sciences such as computer graphics and virtual reality. Furthermore this year ICCSA 2017 hosted the XIV International Workshop On Quantum Reactive Scattering. The program also featured 3 keynote speeches and 4 tutorials **Nature Policies and Landscape Policies** Roberto Gambino, Attilia Peano, 2014-11-11 The book focuses on the relationship between nature conservation policies and landscape policies. This is a relevant subject due to the current need of reviving nature conservation policies which are today affected by a general effectiveness deficiency. To this end landscape policies can play a crucial role bridging nature and culture fostering more integrated approaches to nature conservation and stimulating the active participation of local communities. The book gathers reflections, researches, and experiences developed on an international level on this subject by experts coming from different international contexts Europe U.S.A. various disciplinary backgrounds geographers, planners, biologists, historians, jurists, economists, etc. and several institutional bodies Universities, administrative bodies, international organizations such as IUCN, EUROPARC Federation, UNESCO, etc. The overall reflections gathered in the book which is divided in three main sections regulations and institutional frameworks, policies, actions, and tools combine to suggest innovative visions about the relationships between nature policies and landscape policies.

Global Natural Resource Monitoring and Assessments, 1990 **Remote Sensing for Landscape Ecology** Ricardo Lopez, 2017-08-09 This book provides the practical basis for the use of remote sensing to accomplish landscape ecological projects through the merging of theory and practice with examples. This is a specialized application and both these topics have evolved rapidly in the past decade. This evolution is not in the previous edition and indeed this update provides much new information and valuable ideas for the professional and assist in directing the training of new personnel. The new edition will feature a combination of landscape ecology metrics, quantitative field measurements, and geospatial analyses.
