# English Second Language P2013 Memo

**Kristin Snoddon, Joanne C. Weber**

## English Second Language P2013 Memo:

**Critical Perspectives on Plurilingualism in Deaf Education** Kristin Snoddon, Joanne C. Weber, 2021-07-12 This book is the first edited international volume focused on critical perspectives on plurilingualism in deaf education which encompasses education in and out of schools and across the lifespan. The book provides a critical overview and snapshot of the use of sign languages in education for deaf children today and explores contemporary issues in education for deaf children such as bimodal bilingualism, translanguaging, teacher education, sign language interpreting, and parent sign language learning. The research presented in this book marks a significant development in understanding deaf children's language use and provides insights into the flexibility and pragmatism of young deaf people and their families' communicative practices. It incorporates the views of young deaf people and their parents regarding their language use that are rarely visible in the research to date.

**The Future of Inclusion: Bridging the Digital Divide with Emerging Technologies** Dalia Magdi, Eman Karam, Mohamed Mamdouh, Joshi Amit, 2025-09-30 The book is a collection of best selected research papers presented at the Fourth World Conference on Internet of Things Applications Future ITAF 2024 organized by ITAF Research Lab and Global Knowledge Research Foundation in Cairo during October 9-10, 2024. It includes innovative works from researchers, leading innovators, business executives, and industry professionals to examine the latest advances and applications for commercial and industrial end users across sectors within the emerging Internet of things ecosystem. It shares state of the art as well as emerging topics related to Internet of things such as big data research, emerging services, and analytics. Internet of things IoT fundamentals, electronic computation and analysis, big data for multi-discipline services, security, privacy, and trust. IoT technologies and open and cloud technologies.

**Violent Ignorance** Hannah Jones, 2021-01-28 An elected politician is assassinated in the street by a terrorist associated with extreme political groups and the national response is to encourage picnics. Thousands of people are held in prison-like conditions without judicial oversight or any time limit on their sentence. An attempt to reassert national sovereignty and borders leads thousands of citizens to register for dual citizenship with other countries, some overcoming family associations with genocide in their second country of nationality to do so. This is life in the UK today. How then are things still continuing as normal? How can we confront these phenomena and why do we so often refuse to? What are the practices that help us to accommodate the unconscionable? How might we contend with the horrors that meet us each day rather than becoming desensitized to them? *Violent Ignorance* sets out to examine these questions through an understanding of how the past persists in the present, how trauma is silenced or reappears and how we might reimagine identity and connection in ways that counter rather than ignore historic violence. In particular, Hannah Jones shows how border controls and enforcement and its corollary racism and violence have shifted over time. Drawing on thinkers from John Berger to Ben Okri from Audre Lorde to Susan Sontag, the book questions what it means to belong and discusses how hierarchies of belonging are revealed by what we can see and what we can ignore.
