**20 Strategies for Creative Problem Solving** Simone Janson, 2025-11-17 Also in the 8th revised and improved edition published by a government funded publisher involved in EU programs and a partner of the Federal Ministry of Education you receive the concentrated expertise of renowned experts overview in the book preview embedded in an integrated knowledge system with premium content and 75% advantage At the same time you do good and support sustainable projects Because every profession every company every workplace offers a multitude of challenges every day which have to be overcome in order to be successful But often the solutions are sought within the existing system and therefore creative solutions are not even found The more flexible and open minded people are able to react to sudden changes the more creative the solutions will be This book shows how to use one's own creativity and that of the whole team to find the best and most creative solutions to problems that arise Knowledge that makes a difference independently documented by its own Wikipedia entry With its information on demand concept the publishing house has been successful for over 20 years and has received numerous awards So when you buy the book you are also doing good The publisher is financially and personally committed to socially relevant projects such as tree planting campaigns scholarship foundations sustainable living and many other innovative ideas The goal of providing you with the best possible content on topics such as career finance management recruiting or psychology goes far beyond the static nature of traditional books The interactive book not only imparts expert knowledge but also allows you to ask individual questions and receive personal advice In doing so expertise and technical innovation go hand in hand as we take the responsibility of delivering well researched and reliable content as well as the trust you place in us very seriously Therefore all texts are written by experts in their field Only for better accessibility of information do we rely on AI supported research results to a limited extent to make information easier to find which assists you in your search for knowledge You also gain extensive premium services Each book includes detailed explanations and examples making it easier for you to successfully use the consultation services free of charge available only to book buyers Additionally you can download e courses work with workbooks or engage with an active community This way you gain valuable resources that enhance your knowledge stimulate creativity and make your personal and professional goals achievable and successes tangible That's why as part of the reader community you have the unique opportunity to make your journey to personal success even more unforgettable with travel deals of up to 75% off Because we know that true success is not just a matter of the mind but is primarily the result of personal impressions and experiences Publisher journalist and editor Simone Janson is also a best selling author was a columnist for WELT and Wirtschaftswoche and according to ZEIT one of Germany's most bloggers on success

**Story Thinking and the Real-world Applications of Sci-Fi and Fantasy Writing** Kim Wilkins, Helen Marshall, Lisa Bennett, 2025-01-23 In the 21st century the rapid advance of technology and the existential threat of climate breakdown mean the real world increasingly resembles something out of fiction filled with

ambiguity and uncertainty Such challenges need imaginative creative solutions To find them teams of experts must pool their knowledge make new connections and forge paths forward In Story Thinking award winning authors Helen Marshall Kim Wilkins and Lisa Bennett show how the principles of science fiction and fantasy writing which speculate about and imagine different futures people and worlds can enrich research in such areas as government policy technology innovation and healthcare within universities and various industries When transferred to research story thinking as a method can help to build teams with a shared sense of purpose offer new patterns of thought for improvisation rapid perspective shifts worldbuilding pleasure and playfulness Split into two parts conceptualizing story thinking and story thinking as it has been employed in the field Marshall Wilkins and Bennett bring together theories of creativity from business psychology futures studies gaming and medicine among others with 4 key practices from SFF storytelling envisioning engaging inhabiting and empathizing They then provide practical tools for collaborative problem solving alongside case studies of their own successful applications of Story Thinking in various fields including defense innovation and future scenario modelling with world governments developing empathy and enhancing well being in medical education designing gaming and simulation tools for researchers and futureproofing digital identity technologies with the UNHCR the agency responsible for protecting and aiding refugees Showing how writing can be adapted for new and exciting contexts Story Thinking bridges the gap between the humanities and outside fields and lays the foundations for more creative approaches that more deeply engage in the process of making a better future
