Food Security Governance Nora McKeon, 2014-12-17 This book fills a gap in the literature by setting food security in the context of evolving global food governance Today s food system generates hunger alongside of food waste burgeoning health problems massive greenhouse gas emissions Applying food system analysis to review how the international community has addressed food issues since World War II this book proceeds to explain how actors link up in corporate global food chains and in the local food systems that feed most of the world s population It unpacks relevant paradigms from productivism to food sovereignty and highlights the significance of adopting a rights based approach to solving food problems The author describes how communities around the world are protecting their access to resources and building better ways of producing and accessing food and discusses the reformed Committee on World Food Security a uniquely inclusive global policy forum and how it could be supportive of efforts from the base The book concludes by identifying terrains on which work is needed to adapt the practice of the democratic public sphere and accountable governance to a global dimension and extend its authority to the world of markets and corporations This book will be of interest to students of food security global governance development studies and critical security studies in general

Law and Regulation of Mobile Payment Systems Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya

Recoded City Thomas Ermacora, Lucy Bullivant, 2016-07-01 Recoded City examines alternative urban design planning and architecture for the other 90% namely the practice of participatory placemaking a burgeoning practice that co author Thomas Ermacora terms recoding In combining bottom up and top down means of regenerating and rebalancing neighbourhoods affected by declining welfare or struck by disaster this growing movement brings greater resilience Recoded City sheds light on a new epoch in the relationship between cities and civil society by presenting an emerging range of collaborative solutions and distributed

governance models The authors draw on their own fresh research of global pioneers forging localist design strategies public realm interventions and new stakeholder dynamics As the world becomes increasingly digital and virtual a myriad of online tools and technological options is becoming available These give unprecedented co creation opportunities to communities and professionals alike yielding the benefits of a more open DIY society Because of its close engagement with people place and local identity the field of participatory placemaking has huge untapped potential Responding to the challenges of the Anthropocene era Recoded City is for decision makers developers and practitioners working globally to make better and more liveable cities Shifting Paradigms in International Investment Law Steffen Hindelang,Markus Krajewski,2016-01-21

International investment law is in transition Whereas the prevailing mindset has always been the protection of the economic interests of individual investors new developments in international investment law have brought about a paradigm shift There is now more than ever before an interest in a more inclusive transparent and public regime Shifting Paradigms in International Investment Law addresses these changes against the background of the UNCTAD framework to reform investment treaties The book analyses how the investment treaty regime has changed and how it ought to be changing to reconcile private property interests and the state s duty to regulate in the public interest In doing so the volume tracks attempts in international investment law to recalibrate itself towards a more balanced less isolated and increasingly diversified regime The individual chapters of this edited volume address the contents of investment agreements the system of dispute settlement the interrelation of investment agreements with other areas of public international law constitutional questions and new regional perspectives from Europe South Africa the Pacific Rim Region and Latin America Together they provide an invaluable resource for scholars practitioners and policymakers The individual chapters of this edited volume address the contents of investment agreements the system of dispute settlement the interrelation of investment agreements with other areas of public international law constitutional questions and new regional perspectives from Europe South Africa the Pacific Rim Region and Latin America Together they provide an invaluable resource for scholars practitioners and policymakers Dhaka University Journal of Business Studies ,2013 *Disasters, Risks and Revelation* Steve

Matthewman,2016-04-29 Disasters are part of the modern condition a source of physical anxiety and existential angst and they are increasing in frequency cost and severity Drawing on both disaster research and social theory this book offers a critical examination of their causes consequences and future avoidance *Human Rights and the Digital Divide* Anne Peacock,2019-06-03 The Internet s importance for freedom of expression and other rights comes in part from the ability it bestows on users to create and share information rather than just receive it Within the context of existing freedom of expression guarantees this book critically evaluates the goal of bridging the digital divide the gap between those who have access to the Internet and those who do not Central to this analysis is the examination of two questions first is there a right to access the Internet and if so what does that right look like and how far does it extend Second if there is a right to access

the Internet is there a legal obligation on States to overcome the digital divide Through examination of this debate s history analysis of case law in the European Court of Human Rights and Inter American Court of Human Rights and a case study of one digital inclusion programme in Jalisco Mexico this book concludes that there is indeed currently a legal right to Internet access but one that it is very limited in scope The 2012 Joint Declaration on Freedom of Expression and the Internet is aspirational in nature rather than a representative summary of current protections afforded by the international human rights legal framework This book establishes a critical foundation from which some of these aspirations could be advanced in the future The digital divide is not just a human rights challenge nor will it be overcome through human rights law alone Nevertheless human rights law could and should do more than it has thus far Finance Fictions Rebecca A.

Adelman,2018-11-20 In the United States the early years of the war on terror were marked by the primacy of affects like fear and insecurity These aligned neatly with the state s drive toward intensive securitization and an aggressive foreign policy But for the broader citizenry such affects were tolerable at best and unbearable at worst they were not sustainable Figuring Violence catalogs the affects that define the latter stages of this war and the imaginative work that underpins them These affects apprehension affection admiration gratitude pity and righteous anger are far more subtle and durable than their predecessors rendering them deeply compatible with the ambitions of a state embroiling itself in a perpetual and unwinnable war Surveying the cultural landscape of this sprawling conflict Figuring Violence reveals the varied mechanisms by which these affects have been militarized Rebecca Adelman tracks their convergences around six types of beings civilian children military children military spouses veterans with PTSD and TBI Guant namo detainees and military dogs All of these groups have become preferred objects of sentiment in wartime public culture but they also have in common their status as political subjects who are partially or fully unknowable They become visible to outsiders through a range of mediated and imaginative practices that are ostensibly motivated by concern or compassion However these practices actually function to reduce these beings to abstracted figures silencing their political subjectivities and obscuring their suffering As a result they are erased and rendered hypervisible at once Figuring Violence demonstrates that this dynamic ultimately propagates the very militarism that begets their victimization Essays in Economic and Business History ,2016 **African Research &**
