**Medieval Heresy and the Inquisition** A. S. Turberville,Mauro Liistro,2014-07-03 The aim of this book is to provide within a short space and primarily for the general reader an account of the heresies of the Middle Ages and of the attitude of the Church towards them The book is therefore a brief essay in the history not only of dogma but inasmuch as it is concerned with the repression of heresy by means of the Inquisition of judicature also The ground covered is the terrain of H C Lea's immense work *A History of the Inquisition of the Middle Ages* but that was published more than thirty years ago and since then much has been written though not indeed much in English on the medieval Inquisition and cognate subjects As the present work has been undertaken in the light of some of these more recent investigations it is hoped that it may be of utility to rather closer students as well as to the general reader as a review of the subject suggested by the writings of Lea's successors both partisans and critics At the same time this book does not profess to be a history even the briefest of the medieval Inquisition Its main concern is with doctrine and for that reason chapters on Averrhoism and on Wyclifitism and Husitism have been included though they have little bearing on the Inquisition

**Mediaeval Heresy & The Inquisition** A.S. Turberville,2018-04-04 Reproduction of the original Mediaeval Heresy The Inquisition by A S Turberville

**Mediaeval Heresy & The Inquisition** A. S. Truberville,2017-05-31 This work contains a brief history of heresy and the Inquisition in Medieval Europe Starting with the origins of the heresies in that day the author points out the main issues that brought about the false teaching that those in the Inquisition fought so hard against To conclude the work the author gives the history of the Inquisition itself by going from its very beginnings to the horrid tribunals that were held to try and determine truth from heresy

*Medieval Heresy and the Inquisition* Arthur S. Turberville,2016-12-13

Arthur S Turberville details the Vatican's doctrine underlying the violent Roman Inquisition which was used to suppress all opponents to the Roman Catholic Church's well established religion This book is not a detailed history of the Inquisition but rather an excellent survey of literature on the Church's doctrines on this practice

*Medieval Languedoc* Chris Sparks, 2014 A fresh examination of the Cathar heresy using the records of inquisitorial tribunals to bring out new details of life at the time Religion amongst ordinary men and women in Languedoc in the High Middle Ages is the subject of this book Focusing on laypeople attached to the Cathar movement it investigates the interplay between heresy and orthodoxy and between spiritual and secular concerns in people's lives charting the ways in which these developed through life cycle childhood youth marriage and death This period was one of great upheaval in the region brought about by the Church's response to the perceived threat of heresy and the book also explores the effects of the Albigensian Crusaders and the inquisitors who followed in their wake It draws on a large range of evidence including civic and ecclesiastical legislation contemporary literature and chronicle and broader scholarship on the region but its principal sources are the records of inquisitorial tribunals that operated between 1190 and 1330 transcripts of interview and sentencing which represent the closest thing that exists to an oral history of the period The author teases out the vibrant detail with which these archives document people's lives developing and illustrating his argument through the recounting of their stories Chris Sparks gained his doctorate from the University of York he now works at Queen Mary University of London

**Mediaeval Heresy and the Inquisition** A S Tuberville M a, 2017-02-22 The Inquisition was a group of institutions within the government system of the Catholic Church whose aim was to combat heresy It started in 12th century France to combat religious sectarianism in particular the Cathars and the Waldensians Other groups investigated later included the Spiritual Franciscans the Hussites followers of Jan Hus and Beguines Beginning in the 1250s inquisitors were generally chosen from members of the Dominican Order replacing the earlier practice of using local clergy as judges The term Medieval Inquisition covers these courts up to mid 15th century During the Late Middle Ages and early Renaissance the concept and scope of the Inquisition significantly expanded in response to the Protestant Reformation and the Catholic Counter Reformation It expanded to other European countries resulting in the Spanish Inquisition and Portuguese Inquisition The Spanish and Portuguese operated inquisitorial courts throughout their empires in Africa Asia and the Americas resulting in the Peruvian Inquisition and Mexican Inquisition The Spanish and Portuguese inquisitions focused particularly on the issue of Jewish anusim and Muslim converts to Catholicism partly because these minority groups were more numerous in Spain and Portugal than in many other parts of Europe and partly because they were often considered suspect due to the assumption that they had secretly reverted to their previous religions Except within the Papal States the institution of the Inquisition was abolished in the early 19th century after the Napoleonic Wars in Europe and after the Spanish American wars of independence in the Americas The institution survived as part of the Roman Curia but in 1908 was given the new name of Supreme Sacred Congregation of the Holy Office In 1965 it became the Congregation for the Doctrine of the Faith

***Inquisition and Medieval Society***

James B. Given,2018-08-06 James B Given analyzes the inquisition in one French region in order to develop a sociology of medieval politics Established in the early thirteenth century to combat widespread popular heresy inquisitorial tribunals identified prosecuted and punished heretics and their supporters The inquisition in Languedoc was the best documented of these tribunals because the inquisitors aggressively used the developing techniques of writing and record keeping to build cases and extract confessions Using a Marxist and Foucauldian approach Given focuses on three inquiries what techniques of investigation interrogation and punishment the inquisitors worked out in the course of their struggle against heresy how the people of Languedoc responded to the activities of the inquisitors and what aspects of social organization in Languedoc either facilitated or constrained the work of the inquisitors Punishments not only inflicted suffering and humiliation on those condemned he argues but also served as theatrical instruction for the rest of society about the terrible price of transgression

Through a careful pursuit of these inquires Given elucidates medieval society s contribution to the modern apparatus of power    **Mediaeval Heresy and the Inquisition** Arthur Stanley Turberville,2012-08    **Medieval Heresy & the Inquisition** HardPress,Turberville Arthur Stanley 1888-1945,2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy
