**Mass Communication** Ralph E. Hanson,2018-11-15 Transform your students into smart savvy media consumers A book that students find fun to read and instructors consider educationally valuable Mass Communication Living in a Media World provides the media literacy principles and critical thinking skills that students need to become self aware media consumers Known for his storytelling approach bestselling author Ralph E Hanson uses examples drawn from everyday life to explain the many dimensions of mass media that operate in our society This newly revised Seventh Edition is packed with contemporary examples and compelling stories that illustrate the latest developments and recent events that are changing the face of media today    **Slow Burn** R. Jisung Park,2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It's hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In Slow Burn R Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss

some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally Six Issues Facing Libraries Today John M. Budd,2017-06-13 This book addresses some of the most pressing issues in library and information science It offers informed insight and perspectives on six essential and timely questions facing the profession What is information What is information literacy What roles do academic libraries play in higher education today How can we effectively educate librarians What are the ethical and moral bases of the library and information professions What is the future of librarianship Written by John M Budd one of librarianship's most respected educators and the author of twelve previous books and copublished with Beta Phi Mu the International Honor Society for librarianship this is sure to become one of profession's most talked about books
