Literacies, Power, and the Schooled Body Kerryn Dixon, 2010-11-15 This book examines how children's bodies are trained in time and space to produce schooled literate individuals. Moving from theory to practice examples of real classroom events show how teachers' practices direct discipline onto children's bodies. The Classroom X-Factor: The Power of Body Language and Non-verbal Communication in Teaching John White, John Gardner, 2013-03 The book demonstrates how teachers can transform how they connect with their students whilst also creating meaningful and potent learning experiences for themselves. White and Gardner show that by following simple methods borrowed from psychology and cognitive science teachers can develop their own X Factor and in so doing increase their enjoyment and efficacy as professionals.

School Culture Improvement Zhang Dongjiao, 2022-09-01 School Culture Improvement follows an abstract concrete abstract train of thought. The first three chapters answer the questions from the angle of abstract theory: what is the school culture and how is it managed? What is the school culture drive model? What is the school culture assessment? The two chapters thereafter solve major problems from the perspective of operations: how to develop the school culture solution and how to implement the school culture and promote cultural practices. The book concludes at the abstract theoretical level on the position of sociological reflection exploring what is the rationality and legitimacy of school culture and how does school culture happen. School Culture Improvement is one of the few school culture monographs which aims directly at management. Its contribution and features lie in two aspects: connecting school culture and school improvement and connecting research on project case and school culture thus establishing a relatively complete system of school culture improvement theory. In this book, the author originates the following views and models: concept of school culture, school culture tripod structure theory, school culture spectrum theory, school culture drive model, and school culture unity and conflict.

A Collision of Truths Robert Ellis, 2008-04 Robert Y. Ellis' *A Collision of Truths* is a beautifully written and insightful autobiography of one man's journey of faith. Ellis was raised a Christian Scientist but later both rejected and appropriated many of its central beliefs. Ellis narrates the role Christian Science played in providing balance and meaning in his life while questioning its hostility to critical inquiry and modern medicine. Through sensitive description of the arc of his own life, Ellis calls his readers to re-examine their basic values and commitments amidst the complexities of daily existence in a digital world where knowledge increases exponentially. A genuine achievement and must-read for fellow travelers who are looking for meaning and hope in our time. Mark I. Wallace PhD Professor of Religion, Swarthmore College. Author of *Finding God in the Singing River*. A man would be singularly inert if he were not to find this account vastly tantalizing. What an extraordinary tale! The way Ellis proceeds through his life from earliest childhood on keeps a reader wanting to know what comes next. And his prose is a blessed relief to anyone who loves good English prose. Thomas Howard PhD author of *Christ the Tiger*. This narrative is the first to reveal one Christian Science family's story, their faith's underpinnings and those singular episodes that collided with Ellis.

beliefs including his Christian Science mother being treated by a beam of protons at the Harvard University cyclotron his father s unsolved murder in Harlem and the religious tensions in his childhood home that ultimately exploded Ellis sometimes painful always captivating journey will inspire everyone being challenged by today s extraordinary scientific discoveries which appear to leave no room for God *The Detroit Educational Bulletin* Detroit (Mich.).
