

The learner will be expected to compile a portfolio of evidence based on the research/investigation on a specific topic to depict, sell, demonstrate or advertise the topic. This portfolio will contain all the evidence on the topic that the learner could gather. This should include reports, presentations, photographs, pictures, graphs, sketches, diagrams, etc.

An example of a portfolio of evidence: Evidence of the degradation of the environment.

4.5.2 Project

The **project** will be a piece of work in which knowledge, skills and values which lead towards competence in the specific or integrated content, are demonstrated. The project requires extended reading and writing on the part of the learner. The project will involve thorough investigation into and sourcing information on a selected topic in the curriculum. This could take the form of an interview, observation and making suggestions to improve upon the topic. The objective for the project should be clear and thorough planning should take place, e.g. preparing the questions for an interview. This is followed by the research, and finally the data/ information has to be collated into evidence. The evidence will be in the form of an essay with sub-headings relating to the criteria of the task.

Although learners will spend time outside of contact time to collect resources and information, the completion of the task has to be facilitated by the teacher in class time. The topic and nature of the project will be determined by the content covered according to the annual teaching plan. Learners should be given a project before the end of the second term, after the content related to the project has been addressed, for submission during the third term. Learners will need adequate guidance at the outset of the project and progress should be monitored throughout. All assessment criteria applicable to the project has to be discussed with the learners prior to the commencement of the project.

Examples of a project:

- Community project to address a social or environmental issue
- Investigation of lifestyle choices and their impact on the overall well-being of the South African youth
- Research and apply decision-making skills to challenging situations set in different contexts: a plan of action or advice for long-term success should be provided.

When preparing a project, consider these minimum requirements:

- A cover page
- A table of contents
- Text divided into paragraphs/sections as indicated in the instructions/criteria for the project
- Pictures, photos, diagrams and graphs may be included
- Include a bibliography
- The project should be bound or stapled.

4.5.3 Examinations

Examinations of at least 90 minutes each will be administered twice a year as part of the internal examination

Bruce B. Frey

Exampler Life Orientation 2014:

The Routledge Handbook of Media Use and Well-Being Leonard Reinecke, Mary Beth Oliver, 2016-06-23 The Routledge Handbook of Media Use and Well Being serves as the first international review of the current state of this fast developing area of research The volume provides a multifaceted perspective on the beneficial as well as the detrimental effects of media exposure on psychological health and well being As a first mover it will define the field of media use and well being and provide an essential resource for research and teaching in this area The volume is structured along four central considerations Processes presents concepts that provide a theoretical bridge between media use and well being such as psychological need satisfaction recovery from stress and strain self presentation and self enhancement or parasocial interactions with media characters providing a comprehensive understanding of the underlying processes that drive psychological health and well being through media Moderators examines both risk factors that promote negative effects on well being and protective factors that foster positive media effects Contexts bridges the gap between theory and real life by illustrating how media use can influence well being and satisfaction in very different life domains covering the full spectrum of everyday life by addressing the public private and work spheres Audiences takes a look at the influence of life phases and life situations on the interplay of media use and well being questioning whether various user groups differ with regard to the effects of media exposure Bringing together the expertise of outstanding international scholars from multiple disciplines including communication media psychology social psychology clinical psychology and media education this handbook sheds new light on the role of media in influencing and affecting emotions **The Partisan Next Door** Ethan C. Busby, Adam J. Howat, Jacob E. Rothschild, Richard M. Shafranek, 2021-09-29 In the United States politics has become tribal and personalized The influence of partisan divisions has extended beyond the political realm into everyday life affecting relationships and workplaces as well as the ballot box To help explain this trend we examine the stereotypes Americans have of ordinary Democrats and Republicans Using data from surveys experiments and Americans own words we explore the content of partisan stereotypes and find that they come in three main flavors parties as their own tribes coalitions of other tribes or vehicles for political issues These different stereotypes influence partisan conflict people who hold trait based stereotypes tend to display the highest levels of polarization while holding issue based stereotypes decreases polarization This finding suggests that reducing partisan conflict does not require downplaying partisan divisions but shifting the focus to political priorities rather than identity a turn to what we call responsible partisanship The SAGE Encyclopedia of Educational Research, Measurement, and Evaluation Bruce B. Frey, 2018-01-29 This encyclopedia is the first major reference guide for students new to the field covering traditional areas while pointing the way to future developments Assessing Spirituality in a Diverse World Amy L.
