1. Introduction

Here is a collection of Oracle Forms 10g sample dialogs extracted from a complete Oracle Forms tutorial. This tutorial has been written in French and it would be too time consuming to translate it all in English. This is the reason why I have only extracted and translated these sample dialogs.

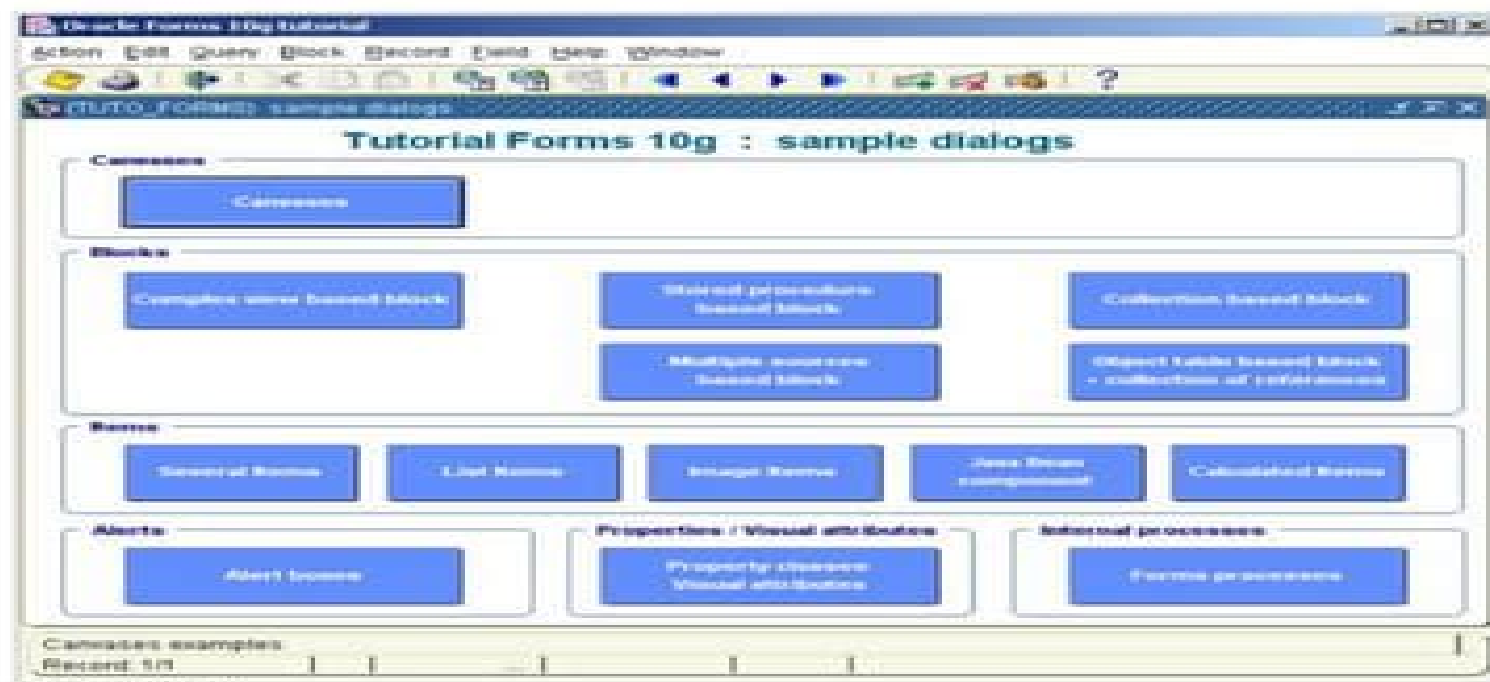

The purpose of this article is not to teach how to build a new form from scratch. It intends to show some of the main advanced features of the product.

To clearly understand in details how these dialogs work, you will have to open them in the Forms Builder and examine them thoroughly. However, in this article, I am going to explain the best I can the most important mechanisms of each sample.

These sample have been tested with an Oracle Forms 10g release 10.1.2.0.2 on an Oracle Database 10g Express Edition Release 10.2.0.1.0.
