The Imperial Church Katherine D. Moran, 2020-05-15 Through a fascinating discussion of religion s role in the rhetoric of American civilizing empire The Imperial Church undertakes an exploration of how Catholic mission histories served as a useful reference for Americans narrating US settler colonialism on the North American continent and seeking to extend military political and cultural power around the world Katherine D Moran traces historical celebrations of Catholic missionary histories in the upper Midwest Southern California and the US colonial Philippines to demonstrate the improbable centrality of the Catholic missions to ostensibly Protestant imperial endeavors Moran shows that as the United States built its continental and global dominion and an empire of production and commerce in the Gilded Age and Progressive Era Protestant and Catholic Americans began to celebrate Catholic imperial pasts She demonstrates that American Protestants joined their Catholic compatriots in speaking with admiration about historical Catholic missionaries the Jesuit Jacques Marquette in the Midwest the Franciscan Jun pero Serra in Southern California and the Spanish friars in the Philippines Comparing them favorably to the Puritans Pilgrims and the American Revolutionary generation commemorators drew these missionaries into a cross confessional pantheon of US national and imperial founding fathers In the process they cast Catholic missionaries as gentle and effective agents of conquest uplift and economic growth arguing that they could serve as both origins and models for an American civilizing empire The Imperial Church connects Catholic history and the history of US empire by demonstrating that the religious dimensions of American imperial rhetoric have been as cross confessional as the imperial nation itself

Diversity, Inc. Pamela Newkirk, 2019-10-22 One of Time Magazine s Must Read Books of 2019 An award winning journalist shows how workplace diversity initiatives have turned into a profoundly misguided industry and

have done little to bring equality to America's major industries and institutions. Diversity has become the new buzzword championed by elite institutions from academia to Hollywood to corporate America. In an effort to ensure their organizations represent the racial and ethnic makeup of the country, industry and foundation leaders have pledged hundreds of millions of dollars to commission studies, launch training sessions, and hire consultants and diversity czars. But is it working? In *Diversity Inc.*, award-winning journalist Pamela Newkirk shines a bright light on the diversity industry, asking the tough questions about what has been effective and why progress has been so slow. Newkirk highlights the rare success stories, sharing valuable lessons about how other industries can match those gains. But as she argues, despite decades of handwringing, costly initiatives, and uncomfortable conversations, organizations have, apart from a few exceptions, fallen far short of their goals. *Diversity Inc.* incisively shows the vast gap between the rhetoric of inclusivity and real achievements. If we are to deliver on the promise of true equality, we need to abandon ineffective, costly measures and commit ourselves to combatting enduring racial attitudes.
