The Transnational Politics of Higher Education Meng-Hsuan Chou, Isaac Kamola, Tamson Pietsch, 2016-02-26 This edited volume introduces readers to the relationship between higher education and transnational politics. It shows how higher education is a significant arena for regional and international transformation as well as domestic political struggle replete with unequal power relations. This volume shows the causes and impacts of recent transformations in higher education within a transnational context. Emerging similarities in objectives, institutional set ups and approaches taking place within higher education institutions across different world regions. The asymmetrical relations between various kinds of institutional, commercial and state actors across borders. The extent to which historical and colonial legacies are important in the transformation of higher education. The potential effects these developments have on the current structure of international political order. Drawing on case studies from across the Middle East, Asia, Africa, Latin America and Europe, the contributors develop diverse perspectives explaining the impact of transnational politics on higher education and higher education on transnational politics across time and locality. This book is among the first multi-disciplinary effort to wrestle with the question of how we can understand the political role of higher education and the political force universities exert in the realm of international relations.

Women in Science Now Lisa M. P. Munoz, 2023-10-31 Silver Medal in the Social Change and Social Justice Category 2024 Nautilus Book Awards Winner 2024 Choice Outstanding Academic Title. Women working in the sciences face obstacles at virtually every step along their career paths. From subtle slights to blatant biases, deep systemic problems block women from advancing or push them out of science and technology entirely. *Women in Science Now* examines solutions to this persistent gender gap, offering new perspectives on how to make science more equitable and inclusive for all. This book shares stories and insights of women from a range of backgrounds working in various disciplines, illustrating the journeys that brought them to the sciences, the challenges they faced along the way, and the important contributions they have made to their fields. Lisa M. P. Munoz combines these narratives with a wealth of data to illuminate the size and scope of the challenges women scientists face while highlighting research-based solutions to help overcome these obstacles. She presents groundbreaking studies in social psychology and organizational behavior that are informing novel approaches for combating historic and ongoing inequities. Through a combined focus on personal experiences and social science research, this timely book provides both a path toward greater gender equity and an inspiring vision of science and scientists.

Don't Talk About Politics Sarah Stein Lubrano, 2025-05-15 Democracy is dying because we are clinging to a dangerous and outdated myth: talking about politics can change people's minds. It doesn't.
