Life Science Memo On Rhino Poaching:

The Animal Code Danny Crossman,2011 Illustrates the myriad ways in which humans exploit animals making a compelling case for people to recognise animals needs and feelings In a breakthrough concept The Animal Code sets out a clear guide for how each of us can treat animals with respect and also help our environment *Parade of Life* ,1993

Rhinos of the World Mario Melletti,Bibhab Talukdar,David Balfour,2025-02-20 This book represents the culmination of more than four years of work by many rhino experts primarily from Africa Asia the United States and Europe involved in rhino conservation research and management It is one of the most comprehensive reference works ever published on the systematics ecology conservation status and management of all rhinoceros species Covering all five rhino species worldwide this volume brings together the contributions of 92 international rhino experts and provides A comprehensive overview of the current state of knowledge on the evolution phylogeny systematics and fossil record of rhinos An in depth look at the ecology and conservation status of each species with detailed chapters A series of case studies on conservation management poaching horn trade and ex situ programs This beautifully illustrated book is an invaluable resource for researchers wildlife managers and professionals in conservation biology ecology and management as well as the general public It reveals the fascinating story of rhino evolution the long history of human interactions with rhinos and the major threats to these iconic species *Analysis of Rhino Poaching in KwaZulu-Natal, South Africa* ,2011 Operation Lock and the War on Rhino

Poaching John Hanks,2015-05-08 The aggressive poaching of rhinos needs to be countered with equal aggression So argued Prince Bernhard of the Netherlands the founder president of the World Wide Fund for Nature WWF at a 1987 meeting with John Hanks conservation expert and WWF s head in Africa The result was Operation Lock a secret initiative funded by Prince Bernhard and staffed by former SAS operatives Operation Lock set up headquarters in Johannesburg and extended its reach into neighbouring states Namibia Zambia Botswana Swaziland and Mozambique Its operatives planned to train game rangers to pose as rhino horn traders in order to entrap buyers and to expose the kingpins who were driving the trade It was a controversial approach all the more because it was working within apartheid South Africa in the late 1980s When the existence of the project was finally leaked WWF denied any involvement and John Hanks took the fall In Operation Lock and the War on Rhino Poaching John Hanks finally tells the story of these explosive events from 25 years ago As a leading international authority on conservation he also deals with the scourge of rhino poaching up to the present and gives powerful and controversial criticism of some of the current policies to curb poaching Saving the Last Rhinos Grant Fowlds,Graham Spence,2020-05-05 The remarkable story of Grant Fowlds who has dedicated his life to saving the imperiled rhinos vividly told with Graham Spence co author of the bestselling The Elephant Whisperer What would drive a man to smuggle rhino horn back into Africa at great risk to himself This is just one of the situations Fowlds has put himself in as part of his ongoing fight against poaching in order to prove a link between southern Africa and the illicit lucrative trade in rhino horn in Vietnam

Shavings of rhino horn are sold as a snake oil cures but a rhino's horn has no magical medicinal properties whatsoever. Yet it is for this that rhinoceroses are being killed at an escalating rate that puts the survival of the species in jeopardy. This corrupt illegal war on wildlife has brought an iconic animal to the brink of extinction. Growing up on a farm in the eastern Cape of South Africa, Grant developed a deep love of nature, turning his back on hunting to focus on saving wildlife of all kinds and the environment that sustains both them and us. He is a passionate conservationist who puts himself on the front line of protecting rhinos in the wild, right now against armed poachers and in the long term through his work with schoolchildren, communities, and policymakers.

Conservation of Species and the Endangered Rhinoceros United States. Congress. House. Committee on Science and Technology. Subcommittee on Natural Resources, Agriculture Research, and Environment, 1987

Ivory, Horn and Blood Ronald Orenstein, 2013-07-25 Meticulous research, chilling facts, an important and much needed book. Dr. Jane Goodall DBE Founder The Jane Goodall Institute. If it is understanding you seek, turn these pages. Virginia McKenna OBE Founder The Born Free Foundation. If you care about elephants and rhinos and the poaching onslaught that threatens their extinction in the wild, this is the book for you. Ian Redmond OBE Ambassador UN Great Apes Survival Program. As recently as ten years ago, out of every ten African elephants that died, four fell at the hands of poachers. The figure today is eight. Over sixty percent of Africa's Forest Elephants have been killed by poachers since the turn of the century. Rhinoceroses are being slaughtered throughout their ranges. The Vietnamese One-horned Rhinoceros and the Western Black rhino have become extinct in the last decade, and the Northern White Rhinoceros, the largest of them all, barely survives in captivity. This alarming book tells a crime story that takes place thousands of miles away in countries that few of us may visit. But like the trade in illegal drugs, the traffic in elephant ivory and rhinoceros horn has far-reaching implications, not only for these endangered animals but also for the human victims of a world-wide surge in organized crime, corruption, and violence. Since the worldwide ban on commercial ivory trade was passed in 1989, after a decade that saw half of Africa's elephants slaughtered by poachers, Ronald Orenstein has been at the heart of the fight. Today a new ivory crisis has arisen, fuelled by internal wars in Africa and a growing market in the Far East. Seizures of smuggled ivory have shot up in the past few years. Bands of militia have crossed from one side of Africa to the other, slaughtering elephants with automatic weapons. A market surge in Vietnam and elsewhere has led to a growing criminal onslaught against the world's rhinoceroses. The situation for both elephants and rhinos is dire.

The Rhino Crash Nick Newman, Karin Mitchell, 2020-07-21

The Decline of the Black Rhino in Zimbabwe Tom Milliken, Kristin Nowell, Jorgen B. Thomsen, 1993. An evaluation of Zimbabwe's Black Rhino conservation strategy in the face of continuous poaching and illegal trade in rhino horn and an assessment of future options for rhino conservation.

Killing for Profit Julian Rademeyer, 2012-11-08. A terrifying true story of greed, corruption, depravity, and ruthless criminal enterprise. On the black markets of Southeast Asia, rhino horn is worth more than gold, cocaine, and heroin. This is the chilling story of a more than two-year long investigation into a dangerous criminal underworld.

where merciless syndicates will stop at nothing to attain their prize It is a tale of greed folly and corruption and of an increasingly desperate battle to save the rhino which has survived for more than 50 million years from extinction Killing for Profit is a meticulous devastating and revelatory account of one of the world s most secretive trades It exposes poachers gangsters con men mercenaries killers gunrunners diplomats government officials and other key players behind the slaughter And it follows the bloody trail from the front lines of the rhino wars in South Africa Zimbabwe and Mozambique to the medicine markets of Vietnam and the lair of a wildlife trafficking kingpin on the banks of the Mekong River in Laos

Technologies for Conserving Species United States. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Natural Resources, Agriculture Research, and Environment,1988 Asian Rhinos Mohd. Khan bin Momin Khan,Nico J. van Strien,IUCN/SSC Asian Rhino Specialist Group,1997 There are currently three species of Asian rhino the Indian or greater one horned Asian rhino the Javan or lesser one horned Asian rhino and the Sumatran or Asian two horned rhino Today all three are threatened with extinction and two the Sumatran rhino and Javan rhino critically so Although the Indian rhino is to be found in greater numbers than the other two the threats to this species nevertheless remain significant As in the case of the African rhinos the threats to the Asian rhinos stem from poaching for the horn the primary demand for which is in traditional Chinese medicine but which is also a speculator s commodity in several consumer nations However a further threat to these animals is also posed by the destruction of their habitat Indeed two of these species inhabit the tropical rainforest which is being destroyed This action plan describes the major requirements for rhino conservation and describes some of the programmes which can and are being implemented to stem the threats to these species such as managed breeding and the in situ conservation of their habitats Rhino Poaching Janina Naef,2016 Rhino horn is very popular in Asia as it is a status symbol and used as medicine That is one reason why the number of these animals is decreasing continuously In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos This Matura Paper deals with problems of rhino poaching in South Africa It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction Therefore 5 theses has been stated which consist of political financial protection measures and enlightenment of local and Asian people Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses The results prove the problems already stated If there are no changes in one of these problems the rhino doubtfully has a future **Four Years for the Rhino** Kamalajaṅga Kumāvara,2012 Asian Rhinos ,1989 **Under Siege** Vivek Menon,1996 This reports documents the results of a study by TRAFFIC India with the support of WWF India The

study began in 1992 and field updates continued to be received until April 1996 The report presents information on rhinoceros population poaching and trade in and use of rhinoceros horn
