

GHS BASICS

Globally Harmonized System of Classification and Labeling of Chemicals

GHS = new labels + safety data sheets (formerly MSDSs) + new pictograms

CHEMICAL LABELS

The GHS requires that label preparers designate the appropriate hazard warnings using four key elements on each label:

- 1. Pictogram:** A visual warning that identifies the hazards of a specific chemical
- 2. Signal Word:** A single word to indicate the severity of a hazard
 Danger = severe
 Warning = less severe
- 3. Hazard Statement:** Describes the hazard(s) of a chemical dependent on its hazard class and category
- 4. Precautionary Statement(s):** Describes the measures to be taken to minimize or prevent adverse effects resulting from exposure, improper storage or improper handling of a hazardous chemical

SAFETY DATA SHEETS (SDSs)

The SDS provides users with 16 standardized categories of information pertaining to a chemical's hazards. This facilitates safe handling of the chemical and allows for safe procedures in the event of an emergency.

- 1. Identification:** includes the product identifier, the manufacturer's or distributor's name, address, phone number and emergency phone number, recommended use, and restrictions on use
- 2. Hazard identification:** includes all hazards regarding the chemical, required label elements
- 3. Composition/information on ingredients:** includes information on the chemical's ingredients, trade secret status
- 4. First-aid measures:** includes acute and delayed symptoms, required treatment
- 5. Fire-fighting measures:** lists suitable extinguishing techniques, equipment, chemical hazards from fire
- 6. Accidental release measures:** lists emergency procedures, protective equipment, proper methods of containment and cleanup
- 7. Handling and storage:** lists precautions for safe handling and storage, including incompatibilities
- 8. Exposure controls/personal protection:** lists OSHA's Permissible Exposure Limits (PELs), Threshold Limit Values (TLVs), appropriate engineering controls, personal protective equipment (PPE)
- 9. Physical and chemical properties**
- 10. Stability and reactivity**
- 11. Toxicological information**
