Geography Scope For Mid Year Exam 2014:

Climate Adaptation Investment and the Community Reinvestment Act Jesse M. Keenan ,Elizabeth Mattiuzzi,2019-06-17 Climate change is already causing disruption to regional economic activity Low to moderate income populations are highly vulnerable to these impacts in part because they often have fewer resources to adapt The stability and prosperity of local economies in the face of climate change depends on how well the public private and civic sectors can come together to respond to the shocks and stresses of climate change Collaborative efforts to fund climate adaptation not only reduce the burden on highly vulnerable populations but they also offer the opportunity for co benefits within a broader portfolio of community development ambitions This report introduces the field of climate adaptation finance and explains its connection to the Community Reinvestment Act CRA within the context of the disaster provisions guiding pre and post disaster investments In a demonstration of need the report provides evidence of the spatial concentration of disaster declarations in areas with CRA eligible populations Existing innovative and hypothetical investments are highlighted within a broader context for stimulating greater pre disaster planning and investment Community development practitioners investors and policymakers will find this report useful for sparking new ideas about how to develop partnerships and funding streams for CRA eligible activities in both eligible communities and areas within a federal disaster declaration that will reduce the vulnerability and increase the adaptive capacity of communities to the impacts of climate change

Geographies of Mediterranean Europe Rubén Camilo Lois-González,2020-12-11 This edited volume highlights the geographies of six European Mediterranean countries France Spain Italy Portugal Turkey and Greece The book provides a balanced overview on what the geographers of these six countries have investigated and reflected in recent decades This thematically arranged book takes into account the national differences of the authors but also highlights the main contributions of Mediterranean geographies on a global scale It reinforces a perception of common problems and debates in Southern Europe This book appeals to the institutionalized geographical community of Mediterranean countries but also to a global audience of scholars of geography territorial and spatial studies social sciences and history
