Let's Play the Math Game

John W. Joyner, 2013. Mathematics is arguably one of the toughest subjects to study in school. Many have shied away from its challenges. And most of the people who, as students, retreated from this subject carried with them this aversion to adulthood. But the author, Dr. John W. Joyner, contends that the study of mathematics can be fun. But this needs the collaboration and cooperation between parent and child. A parent, as a child's first teacher, has a great possibility to influence a child's future success. And with this method, it can be an enjoyable and more importantly, a very enticing way to learn.
