The 9 Truths About Weight Loss Daniel S.

Kirschenbaum, 2013-09-24 Forget fad diets here's a proven program based on good sense and good science. Here are just a few of the bewildering pseudoscientific suggestions found in some of the bestselling diet books: abandon starch, eat all the fat you want but count protein grams, eat dessert but no fat, never mix proteins and carbohydrates, customize your diet based on your blood type, forget counting calories, seek emotional solutions to your weight issues. Even books that are based on sound scientific principles generally tell only half the story. *The 9 Truths about Weight Loss* is the long awaited antidote to the scores of diet fads that have in the long run failed for so many frustrated people. In a program built on years of scientific research and practical experience, Daniel S. Kirschenbaum covers every aspect of losing weight and keeping it off. He shows how attacking weight loss is essentially an athletic challenge and reiterates the necessity of both sensible eating and tracking your food intake. He reminds us that it's natural for our bodies to fight weight loss and as a psychologist he shows us how to get through the inevitable emotional roadblocks. Going beyond try quick fixes, *The 9 Truths about Weight Loss* provides a positive, manageable program for the millions of Americans committed to controlling their weight once and for all.

[Primal Fat Burner](#)

Nora Gedgaudas, 2017-01-24 Author of the popular *Primal Body, Primal Mind* and widely recognized Paleo expert and nutritionist, Nora Gedgaudas presents a revolutionary and accessible high fat diet for maintaining health, losing weight and reversing some chronic diseases. Popular nutritionist, Nora Gedgaudas returns with advice that may sound counterintuitive: Eat fat to burn fat. In *Primal Fat Burner*, she explains the benefits and science behind a ketogenic or fat-burning diet which switches your metabolism from a dependence on sugar to running on healthy fats. As Gedgaudas reveals, numerous studies in recent years refute the long-promoted anti-saturated-fat and anti-cholesterol agenda. Now with able, funny writing, Booklist Gedgaudas explains the science that fat isn't always a bad thing if you know the right kinds of fats to eat. In her comprehensible, enjoyable style, she also lays out a practical meal plan with recipes. Author of the bestselling *Grain Brain*, Dr. David Perlmutter writes in his foreword that *Primal Fat Burner* is "Wonderfully actionable, compassionately taking the reader from why to how." On this diet, you efficiently and effectively metabolize fat, ketones and free fatty acids as your primary source of fuel rather than glucose from carbs, starches and sugars. Because fat is so satisfying, you naturally wind up eating less without feelings of hunger or deprivation. And natural dietary fat is ultimately the key to feeling better, looking better, thinking clearer and living longer. Discover all this and more healthy tips in one of the most groundbreaking nutritional books in recent time.

Eat to Win for Permanent Fat Loss Robert Haas, 2001-05-01 In the 1980s, Robert Haas fueled a diet revolution with his number one bestseller, *Eat to Win*. Now with *Eat to Win for Permanent Fat Loss*, he shows you not only how to lose weight and dramatically improve your performance in all areas of life, but also how to keep the fat off forever. Based on cutting-edge research on how and why our bodies use carbohydrates, proteins and fats, Haas created a

Mediterranean diet that combines the best and healthiest aspects of diets from the regions where people live the longest His approach features a ratio of 50 percent carbohydrates which includes grains fruits and vegetables 25 percent protein and 25 percent fat Haas also provides the specific reasons why this is the ultimate ratio for maximum energy fitness and permanent fat loss Eat to Win for Permanent Fat Loss offers a remarkably flexible healthy food plan that encourages both the use of the new functional foods such as tofu hot dogs and soy chicken nuggets and treats that most diet plans forbid entirely such as chocolate wine and coffee In fact Haas tells you why enjoying chocolate and coffee every day could actually make you healthier providing both satisfaction and valuable phytonutrients that prevent illness It's the kind of eating plan that works for the entire family As for exercise Haas's recommendation is just as simple Burn a minimum of 300 calories the equivalent of 45 minutes of walking throughout the day through any activity you choose Haas's combined diet and exercise program changes lives
