## Life Orientation Provincial Task:

**Teacher Education and the Challenge of Diversity in South Africa** Crispin Hemson, 2006 Conflicts in schools over race fees or language frequently make headlines in South Africa. Such conflicts reflect the multifaceted issue of learner diversity encompassing racial class gender religious linguistic physical and other differences. The need to handle such differences in equitable ways poses new challenges for teachers and teacher education. How are teacher education institutions preparing students for teaching in schools that are different from the ones they experienced as learners? What kinds of skills are they providing to enable teachers to deal with diversity and difference amongst learners? **Whose History Counts** June Bam, Lungisile Ntsebeza, Allan Zinn, 2018-11-29 Originally planned as a fact based book on the pre colonial history of the Eastern Cape in the true tradition of history this ground breaking book focuses on epistemological and foundational questions about the writing of history and whose history counts. Whose History Counts challenges the very concept of the pre colonial and explores methodologies on researching and writing history. Examining Crime and Justice around the World Janet P. Stamatel, 2020-11-04 A thorough and timely investigation of both well established and emerging crime and punishment issues this book provides readers with compelling examples of how different countries around the world confront these problems. This book offers a detailed look at 10 hot topics in crime and punishment that are shared by many countries. Some of these topics are well established within the field of criminology such as patterns of criminal behavior juvenile delinquency drug trafficking policing and punishment others are emerging topics that have not been well studied across a variety of countries such as violence against women hate crimes and gun control. Within each topic the book explores how eight countries experience the issue highlighting similarities across different places as well as unique treatments of the problem. The chapter on punishment addresses the widespread use of incarceration as criminal punishment but also considers different philosophies with respect to the purpose of incarceration and whether or not this strategy is effective in the face of large scale criminal events such as mass atrocities. The country narratives provide historical context for understanding the particular crime or punishment issue current trends and relevant statistical data for describing the extent of the issue and changes over time in addition to contemporary examples of the issue. *Annual Report South Africa*.
