Husain, Jingying Zhao, 2015-05-06 Covering a wide range of topics *Advances in Civil Engineering and Building Materials IV* presents the latest developments in Structural Engineering Road Bridge Engineering Geotechnical Engineering Architecture Urban Planning Transportation Engineering Hydraulic Engineering Engineering Management Computational Mechanics Construc      **Future Communication Technology and Engineering** Kennis Chan, 2015-04-06 This volume contains the papers presented at the 2014 International Conference on Future Communication Technology and Engineering FCTE2014 taking place in Shenzhen China from 16-17 November 2014. Communication technologies are developing quickly and there are more possibilities for future communication technologies provided by the achievements made rather than limitations. At the convention innovative and inspiring ideas were presented; certain controversial topics were discussed e.g. what are the most efficient convenient methods for information communication and what is the most probable prospect for future communication technology. It is difficult to make any definite conclusions from these presentations and discussions but the desire and drive for improvement and development shown by the participants/authors are surely remarkable and respectable. In this book 70 papers are included chosen from hundreds of submissions contributed by scientists from various countries and regions after careful reading and discussing by a team of reviewers. These papers cover almost every possible aspect of communication technology including communication systems automation and control engineering electrical engineering AI algorithms signal processing data mining and knowledge based systems      Women in Science Now Lisa M. P. Munoz, 2023-10-31 Silver Medal in the Social Change and Social Justice Category 2024 Nautilus Book Awards Winner 2024 Choice Outstanding Academic Title Women working in the sciences face obstacles at virtually every step along their career paths. From subtle slights to blatant biases, deep systemic problems block women from advancing or push them out of science and technology entirely. *Women in Science Now* examines solutions to this persistent gender gap, offering new perspectives on how to make science more equitable and inclusive for all. This book shares stories and insights of women from a range of backgrounds working in various disciplines, illustrating the journeys that brought them to the sciences, the challenges they faced along the way, and the important contributions they have made to their fields. Lisa M. P. Munoz combines these narratives with a wealth of data to illuminate the size and scope of the challenges women scientists face while highlighting research-based solutions to help overcome these obstacles. She presents groundbreaking studies in social psychology and organizational behavior that are informing novel approaches for combating historic and ongoing inequities. Through a combined focus on personal experiences and social science research, this timely book provides both a path toward greater gender equity and an inspiring vision of science and scientists      *Safety and Reliability - Safe Societies in a Changing World* Stein Haugen, Anne
