Life Science March 2014 Question Papers:

Research Handbook on Intellectual Property and the Life Sciences Duncan Matthews,Herbert Zech,2017-06-30

Intellectual property IP is a key component of the life sciences one of the most dynamic and innovative fields of technology today At the same time the relationship between IP and the life sciences raises new public policy dilemmas The Research Handbook on Intellectual Property and the Life Sciences comprises contributions by leading experts from academia and industry to provide in depth analyses of key topics including pharmaceuticals diagnostics and genes plant innovations stem cells the role of competition law and access to medicines The Research Handbook focuses on the relationship between IP and the life sciences in Europe and the United States complemented by country specific case studies on Australia Brazil China India Japan Kenya South Africa and Thailand to provide a truly international perspective **The metabolic pathways and environmental controls of hydrocarbon biodegradation in marine ecosystems** Joel E. Kostka,Andreas P.

Teske,Samantha B. Joye,Ian Head,2015-05-15 Biodegradation mediated by indigenous microbial communities is the ultimate fate of the majority of oil hydrocarbon that enters the marine environment The aim of this Research Topic is to highlight recent advances in our knowledge of the pathways and controls of microbially catalyzed hydrocarbon degradation in marine ecosystems with emphasis on the response of microbial communities to the Deepwater Horizon oil spill in the Gulf of Mexico In this Research Topic we encouraged original research and reviews on the ecology of hydrocarbon degrading bacteria the rates and mechanisms of biodegradation and the bioremediation of discharged oil under situ as well as near in situ conditions

White Paper on Science and Technology ,2015 Understanding West Africas Ebola Epidemic Ibrahim

Abdullah,Ismail Rashid,2017-10-15 From 2013 to 2015 over 11 000 people across West Africa lost their lives to the deadliest outbreak of the Ebola virus in history Crucially this epidemic marked the first time the virus was able to spread beyond rural areas to major cities overturning conventional assumptions about its epidemiology With backgrounds ranging from development to disease control the contributors to this volume some of them based in countries affected by the Ebola epidemic consider the underlying factors that shaped this unprecedented outbreak While championing the heroic efforts of local communities and aid workers in halting the spread of the disease the contributors also reveal deep structural problems in both the countries and humanitarian agencies involved which hampered the efforts to contain the epidemic Alarmingly they show that little has been learned from these events with health provision remaining underfunded and poorly equipped to deal with future outbreaks Such issues they argue reflect the wider challenges we face in tackling epidemic disease in an increasingly interconnected world Intellectual Property Issues in Life Sciences Chetan Keswani,Cristina

Possas,2024-11-15 Intellectual Property Issues in Life Sciences Disputes and Controversies highlights emerging legal social and regulatory issues pertaining to various areas of life sciences Patents occupy a prominent position in the innovation systems in the life sciences but to what extent they support or hinder innovation is widely disputed Life science is a broad

subject including agriculture ecology microbiology plant and animal sciences health and diseases biotechnology etc However despite the broad applications of biotechnology and molecular biology techniques profits on investments are surprisingly low Thus it is vitally important for universities public research organizations and private enterprises to protect their innovations There are vast differences of opinion on patentability of living organisms which are largely barred from patent protection However mind sets are rapidly shifting and IP issues in life sciences are receiving increasing attention To compete with progressive bio based economies the developing countries are amending their IP laws to encourage investment An effort has been made to avoid considering policy in isolation but rather to emphasize the interplay between the policy mix the wider institutional setting market forces and system organization solutions Both empirical and conceptual chapters are included to bring them together and to yield facts and interpretations for the readers This book presents expert opinions by frontier academicians researchers and attorneys on the recent challenges in the rapidly evolving life science industry The present book offers comprehensive knowledge on the contemporary issues in life sciences to a wide range of audiences including students scholars researchers legal practitioners policymakers and others interested in emerging intellectual property issues Features The only compilation available on the contemporary intellectual property issues in life sciences in the post COVID era Focuses on the commercial regulatory bioethical and socio legal implications of patents in life sciences Describes an integrated approach for sustained innovations in various areas of life sciences Discusses the recent IP controversies in a pan global context Presents viewpoints to front line practitioners viz attorneys researchers etc *Dual-use life science research and biosecurity in the 21st Century: Social, Technical, Policy, and Ethical Challenges* Jonathan E. Suk, Kathleen M.

Vogel, Amanda Jane Ozin, 2015-06-04 In September 2011 scientists announced new experimental findings that would not only threaten the conduct and publication of influenza research but would have significant policy and intelligence implications The findings presented a modified variant of the H5N1 avian influenza virus hereafter referred to as the H5N1 virus that was transmissible via aerosol between ferrets These results suggested a worrisome possibility the existence of a new airborne and highly lethal H5N1 virus that could cause a deadly global pandemic In response a series of international discussions on the nature of dual use life science arose These discussions addressed the complex social technical political security and ethical issues related to dual use research This Research Topic will be devoted to contributions that explore this matrix of issues from a variety of case study and international perspectives

Food Security and the Modernisation Pathway in China Marie-Hélène Schwoob, 2018-01-26 This book aims at providing students experts and practitioners with a detailed overview of agricultural and food security issues in China analyzed through the lenses of a multidisciplinary approach that enables to fully grasp the current socio political challenges and lock ins of agricultural transformation towards more sustainable practices Confronted to a running decrease and degradation of its resources and rapidly evolving food habits China became a net importer of food in 2004 and its agricultural balance has since become heavier every day Beyond

providing a comprehensive overview of these stakes this book also presents consistent and original first hand research material collected by the author during months of fieldwork in China in the countryside and from various economic and political circles Conclusions drawn from this often difficult to access fieldwork shed light on the whole galaxy of public and private stakeholders taking part in agricultural modernization in China on their interests and on the patterns of power that underlie the development and implementation of agricultural policies
