Life Orientation Memo For November 2013

Dimitri Van Den Meerssche

Life Orientation Memo For November 2013:

The World Bank's Lawyers Dimitri Van Den Meerssche, 2022-09-12 The World Bank's Lawyers provides an original socio legal account of the evolving institutional life of international law. Informed by oral archives, months of participant observation, interviews, legal memoranda and documents obtained through freedom of information requests, it tells a previously untold story of the World Bank's legal department between 1983 and 2016. This is a story of people and the beliefs they have, the influence they seek and the tools they employ. It is an account of the practices they cling to and how these practices gain traction or how they fail to do so in an international bureaucracy. Inspired by actor network theory, relational sociologies of association and performativity theory, this ethnographic exploration multiplies the matters of concern in our study of international law and lawyering: the human and non human material and semantic visible and evasive actants that tie together the fragile fabric of legality. In tracing these threads, this book signals important changes in the conceptual repertoire and materiality of international legal practice as liberal ideals were gradually displaced by managerial modes of evaluation. It reveals a world teeming with life, a space where professional postures and prototypes, aesthetic styles and technical routines are woven together in law's shifting mode of existence. This history of international law as a contingent cultural technique enriches our understanding of the discipline's disenchantment and the displacement of its traditional tropes by unexpected and unruly actors. It thereby inspires new ways of critical thinking about international law's political pathways, promises and pathologies as its language is inscribed in ever evolving rationalities of rule. **Muslim Fashion**

Reina Lewis, 2015-10-15 In the shops of London's Oxford Street, girls wear patterned scarves over their hair as they cluster around makeup counters. Alongside them, hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers. Participating in the world of popular mainstream fashion, often thought to be the domain of the West, these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion. In treating hijab and other forms of modest clothing as fashion, Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity. Muslim Fashion contextualizes modest wardrobe styling within Islamic and global consumer cultures, interviewing key players including designers, bloggers, shoppers, store clerks and shop owners. Focusing on Britain, North America and Turkey, Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion, identity and ethnicity. Law, Religion and Homosexuality Paul Johnson, Robert Vanderbeck, 2014-05-09 Law, Religion and Homosexuality is the first book length study of how religion has shaped and continues to shape legislation that regulates the lives of gay men and lesbians. Through a systematic examination of how religious discourse influences the making of law in the form of official interventions made by faith communities and organizations as well as by expressions of faith by individual legislators, the authors argue that religion continues to be central to both enabling and restricting the development of sexual orientation equality. Whilst some claim that

faith has been marginalized in the legislative processes of contemporary western societies Johnson and Vanderbeck show the significant impact of religion in a number of substantive legal areas relating to sexual orientation including same sex sexual relations family life civil partnership and same sex marriage equality in employment and the provision of goods and services hate speech regulation and education Law Religion and Homosexuality demonstrates the dynamic interplay between law and religion in respect of homosexuality and will be of considerable interest to a wide audience of academics policy makers and stakeholders *Daily Labor Report* ,2009-07 *Corridors of Contagion* Victoria Law,2024-09-10 Tracing the narratives of five incarcerated individuals Sentenced to COVID speaks to the devastating impact of surviving the pandemic inside prison walls Corridors of Contagion brings to light the experiences of five people incarcerated across the United States as they navigate the onset of the pandemic and the many months stretched into years that followed Journalist Victoria Law combines this storytelling with a trenchant analysis of the structural failures of the US carceral system failures that made prisons uniquely vulnerable to COVID 19 outbreaks from overcrowding to solitary confinement from insufficient healthcare to life sentences The book portrays the horrors of continual lockdowns not in the comfort of one's own home but in prisons where routine violence and chaos is made even more unimaginable by the complete lack of control over protection from a terrifying and lethal new virus The pandemic provided an opportunity for lawmakers and policy makers to rethink the nation's addiction to perpetual punishment Instead US jails and prisons doubled down on punishment under the guise of pandemic protections As a result people behind bars experienced increased stress mental health challenges increased violence and higher rates of deaths many of which could have been prevented While the pandemic emergency has been declared over we are continuing to learn more about the extent of its destruction Corridors of Contagion reminds readers about both the particular horrors experienced by people in cages and the continued role of the US as the world's prison nation
