Geography Paper 2 November 2011 memorandum:

Directory of College Geography of the United States, 1961 **Protection and Empire** Lauren Benton, Adam Clulow, Bain Attwood, 2017-11-02 For five centuries protection has provided a basic currency for organising relations between polities Protection underpinned sprawling tributary systems permeated networks of long distance trade reinforced claims of royal authority in distant colonies and structured treaties Empires made routine use of protection as they extended their influence projecting authority over old and new subjects forcing weaker parties to pay them for safe conduct and sometimes paying for it themselves The result was a fluid politics that absorbed both the powerful and the weak while giving rise to institutions and jurisdictional arrangements with broad geographic scope and influence This volume brings together leading scholars to trace the long history of protection across empires in Asia Africa Australasia Europe and the Americas Employing a global lens it offers an innovative way of understanding the formation and growth of empires and uncovers new dimensions of the relation of empires to regional and global order **School Subjects and Curriculum Change** Ivor F. Goodson, 2013-04-03 The process of curriculum development is highly practical as Goodson shows in this enlarged anniversary third edition of his seminal work The position of subjects and their development within the curriculum is illustrated by looking at how school subjects in particular geography and biology gained academic and intellectual respectability within the whole curriculum during the late 1960s and early 1970s He highlights how subjects owe their formation and accreditation to competing status and their power to compete in the provision of worthwhile knowledge and considers subjects as continually changing sub groups of information Such subjects from the framework of the society in which individuals live and over which they have influence This volume questions the basis on which subject disciplines are developed and formulates new possibilities for curriculum development and reform in a post modernist age *The Tyranny of Printers* Jeffrey L. Pasley, 2002-11-29 Although frequently attacked for their partisanship and undue political influence the American media of today are objective and relatively ineffectual compared to their counterparts of two hundred years ago From the late eighteenth to the late nineteenth century newspapers were the republic's central political institutions working components of the party system rather than commentators on it The Tyranny of Printers narrates the rise of this newspaper based politics in which editors became the chief party spokesmen and newspaper offices often served as local party headquarters Beginning when Thomas Jefferson enlisted a Philadelphia editor to carry out his battle with Alexander Hamilton for the soul of the new republic and got caught trying to cover it up the centrality of newspapers in political life gained momentum after Jefferson's victory in 1800 which was widely credited to a superior network of papers Jeffrey L Pasley tells the rich story of this political culture and its culmination in Jacksonian democracy enlivening his narrative with accounts of the colorful but often tragic careers of individual editors *The Making of the Asia Pacific* See Seng Tan, 2013-08-15 Critically surveying the power of narratives in shaping the discourse on the post Cold War Asia Pacific See Seng Tan

examines the purposes practices power relations and protagonists behind policy networks such as the Council for Security Cooperation in the Asia Pacific and the Pacific Economic Cooperation Council The author argues that filled with economic social and political meaning the policy and academic discourses regarding the Asia Pacific and its subregions authorize and provoke certain understandings while preventing counternarratives from emerging *Documents Communicated to the Senate and House of Representatives* ,1895 Risky Business Lawrence S. Powell,2013-02-01 Today s insurance regulation in the United States is at a crossroads while some segments of the insurance industry are moving away from a state based approach toward regulation others favor a greater role for the federal government despite the opposition from other stakeholders Written by leading scholars in risk management this book addresses some of the most important questions facing the future of state and federal regulation of the insurance industry Insurance regulation in the United States is at a crossroads It used to be a given that the insurance industry would resist efforts to move away from state based approaches toward regulation but no more Some now favor a greater role for the federal government while others oppose calls to transition to a federal system In any case might not a competitive and innovative system of free market insurance be preferable to best serve the interests of consumers The current debate over insurance regulation is increasingly a struggle between competing interest groups and opposing ideologies about the proper scope of government a conflict that affects individuals decisions about how much risk to undertake whether those decisions involve driving a motorcycle in dense urban traffic or building a home in a flood fire hurricane or other high risk zone But what types of reforms would best serve the interests of consumers And what lessons can be learned from previous reform efforts In *Risky Business Insurance Markets and Regulation* edited by Lawrence S Powell leading scholars in risk management address some of the most important questions about the future of insurance regulation and the potential for market based alternatives The book examines not only the impetus behind various reform proposals but also the historical development of insurance regulation in the United States In so doing *Risky Business* examines alternative regulatory and deregulatory frameworks used in the United States and in the European Union and whether such options are beneficial or not **Title Announcement Bulletin** ,1956
