within a few months we were finally able to actually see our savings reading a comfortable figure We plan to go on until we are completely free of financial anxiety That is we want to save enough so that we can have mental and financial freedom to do things that we want and to fulfill our long term financial goals Then savings can take care of the bills While I was planning our budget I did a lot of research This book is based on that research and some personal experiences that I gained while going through the process The first chapter is purely theoretical Chapter 2 contains several budgeting methods and psychological tactics that can help you stay on the budget Chapter 3 contains a practical step wise plan that you can follow to develop your personalized budget I can assure you that if you follow the methods and techniques that I have provided in this book you will be able to save yourself from a financial disaster and you will be able to have a savings account statement that you are proud of For more information click on the BUY BUTTON
