Making Eye Health a Population Health Imperative National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on Public Health Approaches to Reduce Vision Impairment and Promote Eye Health, 2016-12-15 The ability to see deeply affects how human beings perceive and interpret the world around them For most people eyesight is part of everyday communication social activities educational and professional pursuits the care of others and the maintenance of personal health independence and mobility Functioning eyes and vision system can reduce an adult's risk of chronic health conditions death falls and injuries social isolation depression and other psychological problems In children properly maintained eye and vision health contributes to a child's social development academic achievement and better health across the lifespan The public generally recognizes its reliance on sight and fears its loss but emphasis on eye and vision health in general has not been integrated into daily life to the same extent as other health promotion activities such as teeth brushing hand washing physical and mental exercise and various injury prevention behaviors A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health Making Eye Health a Population Health Imperative Vision for Tomorrow proposes a new population centered framework to guide action and coordination among various and sometimes competing stakeholders in pursuit of improved eye and vision health and health equity in the United States Building on the momentum of previous public health efforts this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal state and local levels **Expanding Medi-Cal: Profiles of Potential New Users** , The Unexpected Economics of Minimum Wages Michael Reich, 2025-08-11 This book presents a comprehensive analysis of the effects of minimum wages Michael Reich's cutting edge research findings challenge traditional approaches to the topic exploring the effects of minimum wage policies across different sectors groups and demographics *The 2013-14 Budget* California. Legislature. Joint Legislative Budget Committee. Legislative Analyst, 2013 Discusses state and county roles in administering and funding the California implementation of the Affordable Care Act Trapped in America's Safety Net Andrea Louise Campbell, 2014-09-02 A remarkable look at the flaws of the social safety net through one family's personal tragedy and the Catch 22 financial disaster that followed Deborah A Stone author of Policy Paradox When Andrea Louise Campbell's sister in law Marcella Wagner was run off the freeway by a hit and run driver she was seven and a half months pregnant She survived and miraculously the baby was born healthy But that's where the good news ends Marcella was left paralyzed from the chest down This accident was much more than just a physical and emotional tragedy Like so many Americans neither Marcella nor her husband Dave who worked for a small

business had health insurance On the day of the accident she was on her way to class for the nursing program through which she hoped to secure one of the few remaining jobs in the area with the promise of employer provided insurance Instead the accident plunged the young family into the tangled web of means tested social assistance As a social policy scholar Campbell thought she knew a lot about means tested assistance programs What she quickly learned was that missing from most government manuals and scholarly analyses was an understanding of how these programs actually affect the lives of the people who depend on them Using Marcella and Dave s situation as a case in point she reveals the programs shortcomings in this book Because American safety net programs are designed for the poor the couple first had to spend down their assets and drop their income to near poverty level before qualifying for help What s more to remain eligible they ll have to stay under these strictures for the rest of their lives barred from doing many of the things middle class families are encouraged to do Save for retirement Build an emergency fund Take advantage of tax free college savings And while Marcella and Dave s story is tragic the financial precariousness they endured even before the accident is all too common in America where the prevalence of low income work and unequal access to education have generated vast and growing economic inequality The implementation of the ACA has cut the number of uninsured and underinsured and reduced some disparities in coverage but continues to leave too many people open to tremendous risk Behind the statistics and beyond the ideological battles are human beings whose lives are stunted by policies that purport to help them In showing how and why this happens Trapped in America s Safety Net offers a way to change it An engaging narrative account of how social assistance programs shape real people s lives Campbell is authoritative and scholarly yet warm and personal a rare combination one sees in the likes of Oliver Sacks and Barbara Ehrenreich Deborah A Stone author of Policy Paradox Makes a compelling case for a stronger more integrated and ultimately more effective strategy for helping the millions of Americans who find themselves plummeting out of the insecure middle class Jacob S Hacker New York Times bestselling coauthor of Winner Take All Politics **The**
