**Megachange** Darrell M. West, 2016-10-18 Big unexpected changes are here to stay Slow incremental change has become a relic of the past Today's shifts come fast and big what Darrell West calls megachanges in which dramatic disruptions in trends and policies occur on a regular basis Domestically we see megachange at work in the new attitudes and policies toward same sex marriage health care smoking and the widespread legalization of marijuana use Globally we have seen the extraordinary rise and then collapse of the Arab Spring the emergence of religious zealotry the growing influence of nonstate actors the spread of ISIS fomented terrorism the rise of new economic and political powers in Asia and the fracturing of once stable international alliances Long held assumptions have been shattered and the proliferation of unexpected events is confounding experts in the United States and around the globe Many of the social and political institutions that used to anchor domestic and international politics have grown weak or are in need of dramatic reform What to do West says that we should alter our expectations about the speed and magnitude of political and social change We also need to recognize that many of our current governing processes are geared to slow deliberation and promote incremental change not large scale transformation With megachange becoming the new normal our domestic and global institutions must develop the ability to tackle the massive economic political and social shifts that we face **World Resources, 1994-95**
