Antimicrobial resistance toolkit for youth engagement Food and Agriculture Organization of the United Nations, UNEP United Nations Environment Programme, World Organisation for Animal Health, World Health Organization, 2024-10-22

Antimicrobial resistance AMR is a pressing global concern that requires attention and creative solutions. Young people today will face the consequences of inaction and increased risks of AMR. The Quadripartite, which consists of the Food and Agriculture Organization of the United Nations, FAO, the United Nations Environment Programme, UNEP, the World Health Organization, WHO, and the World Organisation for Animal Health, WOAH, strongly believes that young people can play an important role in bringing together wider society and stakeholder groups to tackle AMR. Young people as agents of change can raise awareness about AMR and advocate for local and global solutions. Youth were also identified as one of four priority target audiences during two global consultations on raising awareness about AMR, organized in 2022 by the Quadripartite. In response, the Quadripartite has developed this practical toolkit for engaging youth in AMR, based on consultations with young people themselves. The aim of this practical toolkit is to equip youth-led networks and youth-serving organizations with resources to engage young people in AMR communication, education, and campaigns for awareness raising, advocacy, and behaviour change. The practical toolkit consists of 11 tools, a resource pack, and case studies of good practices of youth engagement in the AMR response.

*The Routledge International Handbook on Femicide and Feminicide* Myrna Dawson, Saide Mobayed Vega, 2023-05-31

This volume explores in depth femicide and feminicide, bringing together our current knowledge on this phenomenon and its prevention. No country is free from femicide/feminicide, which represents the tip of the iceberg in male violence against women and girls. Therefore, it is crucial and timely to better understand how states and their citizens are experiencing and responding to femicide/feminicide globally. Through the work of internationally recognised feminist and grassroots activists, researchers, and academics from around the world, this handbook offers the first in-depth global examination of the growing social movement to address femicide and feminicide. It includes the current state of knowledge and the prevalence of femicide/feminicide and its characteristics across countries and world regions, as well as the social and legal responses to these killings. The contributions contained here look at the accomplishments of the past four decades, ongoing challenges and current and future priorities to identify where we need to go from here to prevent femicide/feminicide specifically and male violence against women and girls overall. This transnational, multidisciplinary, cross-sectoral handbook will contribute to research, policy, and practice globally at a time when it is needed the most. It brings a visible global focus to the growing concern about femicide/feminicide, underscoring the importance of adopting a human rights framework in working towards its prevention in an increasingly unstable global world for women and girls.
