**Medieval Scandinavia** Birgit Sawyer,1993 The study of Scandinavia has been and still is deeply influenced by the interpretation of its earliest history that was developed in the 19th century by political legal and literary historians archaeologists and anthropologists Scandinavia figured prominently in discussions of early medieval Europe not only as the homeland of the Vikings but also as the region in which Germanic society remained uncontaminated by Christianity and other influences longer than anywhere else In Medieval Scandinavia Birgit and Peter Sawyer question assumptions about early Scandinavian history including the supposed leading role of free and equal peasants and their position in founding churches They meticulously trace the development of Scandinavia from the early ninth century through the second and third decades of the 16th century when rulers of Scandinavia rejected the authority of the Papacy and the attempt to establish a united Scandinavian monarchy finally collapsed The authors include a discussion of medieval history writing and comment on the use of history in the 16th century and modern attitudes to medieval history which differ in various parts of Scandinavia They ultimately conclude that historic Scandinavia held greater similarities to other European regions than has been commonly supposed Birgit Sawyer is one of the founders of the biennial interdisciplinary conferences on women in medieval

European ascendency and the expansion of Christianity in the medieval period     **Faith and Knowledge in Late Medieval and Early Modern Scandinavia** Karoline Kjesrud, Mikael Males, 2020 This book investigates the interface between faith and knowledge in Scandinavia in the centuries before and after the Reformation a period in which the line between belief and knowledge was often blurred and local traditions remained influential While Scandinavia was undoubtedly an integral part of Latin Christendom before the arrival of Lutheranism the essays gathered together in this volume demonstrate that religious discourse still took a unique form in this region Faith was influenced by magical practices centred on remnants of Nordic paganism local wisdom literature and metaphoric language about the divine that diverged considerably from that of the Judeo Christian tradition Texts motifs and practices that were common throughout Europe were also transformed and altered within this northern setting 00Covering the late medieval up to the early modern period this volume offers new insights into intellectual culture in Scandinavia and the remarkable longevity of local beliefs even into the early post Reformation period
