Ward, 2024-10-16 This collection compiles essays by medievalist scholars that examine the variety of ways authors have fictionalized the medieval period while meeting the challenge of creating engaging literature More significantly this project seeks to explore the importance of authenticity in these works of medievalism The works discussed represent a variety of genres including historical young adult Arthurian detective fiction paranormal romance and fantasy as well as adaptations of Beowulf and Chaucer's Canterbury Tales Opening the collection are three essays by author scholars who share their processes of creating an authentic medieval world appealing to a wide audience The remaining seven essays by medievalist scholars examine a variety of medievalist texts addressing the extent to which their authors adhere to the facts of the period while at times necessarily filling in historical gaps in the process of creating these works Each of the essays addresses the concept of authenticity in fiction about the Middle Ages together they become a lively conversation about authenticity in narratives of various genres **The Oxford Handbook of Music and Medievalism** Stephen C. Meyer, Kirsten Yri, 2020-03-02 The Oxford Handbook of Music and Medievalism provides a snapshot of the diverse ways in which medievalism the retrospective immersion in the images sounds narratives and ideologies of the European Middle Ages powerfully transforms many of the varied musical traditions of the last two centuries Thirty three chapters from an international group of scholars explore topics ranging from the representation of the Middle Ages in nineteenth century opera to medievalism in contemporary video game music thereby connecting disparate musical forms across typical musicological boundaries of chronology and geography While some chapters focus on key medievalist works such as Orff's Carmina Burana or Peter Jackson's Lord of the Rings films others explore medievalism in the oeuvre of a single composer e.g. Richard Wagner or Arvo Pärt or musical group e.g. Led Zeppelin The topics of the individual chapters include both well known works such as John Boorman's film Excalibur and also less familiar examples such as Eduard Lalo's Le Roi d'Ys The authors of the chapters approach their material from a wide array of disciplinary perspectives including historical musicology popular music studies music theory and film studies examining the intersections of medievalism with nationalism romanticism ideology nature feminism or spiritualism Taken together the contents of the Handbook develop new critical insights that venture outside traditional methodological constraints and provide a capstone and point of departure for future scholarship on music and medievalism **Neo-Victorianism and Medievalism**, 2024-04-30 Bringing together neo Victorian and medievalism scholars in dialogue with each other for the first time this collection of essays foregrounds issues common to both fields The Victorians reimagined the medieval era and post Victorian medievalism repurposes received nineteenth century tropes as do neo Victorian texts For example aesthetic movements such as Arts and Crafts which looked for inspiration in the medieval era are echoed by steampunk in its return to

Victorian dress and technology Issues of gender identity sexuality imperialism and nostalgia arise in both neo Victorianism and medievalism and analysis of such texts is enriched and expanded by the interconnections between the two fields represented in this groundbreaking collection The Rise and Fall of British Crusader Medievalism, c.1825–1945 Mike Horswell, 2018-01-29 This book investigates the uses of crusader medievalism the memory of the crusades and crusading rhetoric and imagery in Britain from Walter Scott's *The Talisman* 1825 to the end of the Second World War It seeks to understand why and when the crusades and crusading were popular how they fitted with other cultural trends of the Victorian and Edwardian eras how their use was affected by the turmoil of the First World War and whether they were differently employed in the interwar years and in the 1939–45 conflict Building on existing studies and contributing the fruits of fresh research it brings together examples of the uses of the crusades from disparate contexts and integrates them into the story of the rise and fall of crusader medievalism in Britain *Medieval Spaces in Comics* Elizabeth Allyn Woock, 2024-11-12 This book proposes a conceptual framework for analyzing and discussing narrative space in comics Building on Mieke Bal's phenomenological approach to cultural analysis 2002 Gaston Bachelard's *Poetics of Space* 1996 and Geraint D. Arcy's use of the *mise en scène* to describe space in the comics format 2020 this book layers in a nuanced approach to the depiction of medieval environments through affect theory and poetics to interrogate the staging of ideas which are associated with the medieval period Considering the action setting and story as well as affect atmosphere and mood medieval space is contextualized as an ethically complex poetic image This book also explores the communicative possibilities of the comics format and seeks to show rather than just tell the methodologies of space in comics based research through illustrating key sections of the text Medieval Women on Film Kevin J.
