Data Analytics and Adaptive Learning Patsy D. Moskal,Charles D. Dziuban,Anthony

G. Picciano, 2023-08-25 Data Analytics and Adaptive Learning offers new insights into the use of emerging data analysis and adaptive techniques in multiple learning settings. In recent years both analytics and adaptive learning have helped educators become more responsive to learners in virtual, blended and personalized environments. This set of rich, illuminating international studies spans quantitative, qualitative and mixed methods research in higher education, K-12 and adult continuing education contexts. By exploring the issues of definition and pedagogical practice that permeate teaching and learning and concluding with recommendations for the future research and practice necessary to support educators at all levels, this book will prepare researchers, developers and graduate students of instructional technology to produce evidence for the benefits and challenges of data driven learning.
