War and Media Operations Thomas Rid, 2007-02-15 This is the first academic analysis of the role of embedded media in the 2003 Iraq War providing a concise history of US military public affairs management since Vietnam In late summer 2002 the Pentagon considered giving the press an inside view of the upcoming invasion of Iraq The decision was surprising and the innovative embedded media program itself received intense coverage in the media Its critics argued that the program was simply a new and sophisticated form of propaganda Their implicit assumption was that the Pentagon had become better at its news management and had learned to co opt the media This new book tests this assumption introducing a model of organizational learning and redraws the US military's cumbersome learning curve in public affairs from Vietnam Grenada Panama the Persian Gulf Somalia the Balkans to Afghanistan examining whether past lessons were implemented in Iraq in 2003 Thomas Rid argues that while the US armed forces have improved their press operations America's military is still one step behind fast learning and media savvy global terrorist organizations War and Media Operations will be of great interest to students of the Iraq War media and war propaganda political communications and military studies in general *Medical Imaging*, 2004 **Popular Electronics**, 1971 **EPA Publications Bibliography Quarterly Abstract Bulletin** United States.
