Permacrisis and the Policy Continuum in the UK Anémone Kober-Smith, Anne Beauvallet, 2025-11-28 This book examines the UK's enduring permacrisis: austerity policies, Brexit, climate change, inflation, and the rising cost of living through the lens of the policy response to the COVID-19 pandemic as part of a policy continuum. The book demonstrates that the policy continuum cannot be considered as a mere attempt to tackle a range of social and economic issues but also as contributing to forging the permacrisis *sui generis*. It concludes that the government's policy responses before, during, and after the pandemic presented various flaws in governance, leadership, and execution, constituting a crucial part of the permacrisis in the UK. Evidencing this through its assessment of policy outcomes in a number of key public policy fields such as mental health care and education, the book explores the impact of the pandemic on wide-ranging and long-term inequalities and vulnerable populations. This book is of key interest to scholars and students of British politics, policy studies, and more broadly sociology and social policy.
