**Visible Learning: Feedback** John Hattie, Shirley Clarke, 2018-08-15 Feedback is arguably the most critical and powerful aspect of teaching and learning. Yet there remains a paradox why is feedback so powerful and why is it so variable. It is this paradox which Visible Learning Feedback aims to unravel and resolve. Combining research excellence theory and vast teaching expertise this book covers the principles and practicalities of feedback including the variability of feedback the importance of surface, deep and transfer contexts student to teacher feedback peer to peer feedback the power of within lesson feedback and manageable post lesson feedback. With numerous case studies examples and engaging anecdotes woven throughout the authors also shed light on what creates an effective feedback culture and provide the teaching and learning structures which give the best possible framework for feedback. Visible Learning Feedback brings together two internationally known educators and merges Hattie's world famous research expertise with Clarke's vast experience of classroom practice and application making this book an essential resource for teachers in any setting phase or country.

Unless children are taught to write legibly and at speed however their educational achievements may be considerably reduced and their self esteem affected. The ability to handwrite legibly is not an optional extra it is essential for everyone even in this age of computer technology. Based on a survey of primary schools in the UK this book provides detailed information about how schools are making provision for handwriting teaching within the National Literacy Strategy. The recommendations for good practice will be helpful for literacy advisers literacy co ordinators SENCOs and primary school teachers. There is little time for primary education students to focus on handwriting as part of their initial training so they too will find this book invaluable.

**Nelson Handwriting Teacher's Book** John Jackman, Anita Warwick, 2003 Nelson Handwriting is a widely used handwriting scheme in schools throughout the UK. It provides a clear practical framework for implementing and developing a whole school handwriting policy. The books are sequenced for progression and contain three levels of differentiation designed for a wide range of abilities. Structured units introduce clear teaching points followed by plenty of opportunities for practice.
