

The background of the cover is a reproduction of a painting by John Constable. It depicts a coastal scene with a dark, dramatic sky filled with heavy, swirling clouds. The sea is turbulent, with white foam from breaking waves visible. In the foreground, a sandy beach is shown with several small figures of people, some standing and some sitting, looking out towards the sea. The overall mood is one of a powerful, perhaps stormy, day.

John Constable - CLOUDS IN PAINTINGS & SKETCHES E. L. Helton PhD, 2021-12-15 Born in East Bergholt Suffolk on 11 June 1776 Constable was the second son of the six children of Golding Constable and Ann Watts He was educated at a private school in Lavenham and at the grammar school in Dedham subsequently joining the family business of which it was intended he would succeed as manager He learned the technique of painting from John Dunthorne a local plumber and glazier who was an amateur painter and was encouraged by Sir George Beaumont Staying with relatives at Edmonton in 1796 he met John Cranch a mediocre artist whose style he imitated and John Thomas Smith the antiquarian draftsman with whom he made drawings of picturesque cottages In 1799 his father gave him an allowance to enter the Royal Academy Schools reluctantly consenting in 1802 to his becoming a professional painter That same year Constable showed his first landscape at the Academy where he was to exhibit nearly every year until his death and acquired a studio opposite the family house He spent summers in East Bergholt sketching from nature until 1817 in the autumn of 1806 he made a two month visit to the Lake District In 1809 Constable met and fell in love with Maria Bicknell but he was unable to marry her until 1816 owing to the opposition of Maria's grandfather After the marriage the couple lived in London first on Keppel Street then after 1822 on Charlotte Street The marriage which was the prelude to Constable's finest work was a deeply happy one and there were seven children to whom the artist was devoted Maria's health was far from robust however and she died in 1828 a blow from which Constable never fully recovered John Constable's Skies John E. Thornes, John Constable, 1999-01-01 John Constable is arguably the most accomplished painter of English skies and weather of all time For Constable the sky was the keynote the standard of scale and the chief organ of sentiment in a landscape painting But how far did he understand the workings of the forces of nature which created his favourite cumulus clouds portrayed in so many of his skies over the landscapes of Hampstead Heath Salisbury and Suffolk And were the skies he painted scientifically accurate In this lucid and accessible study John Thornes provides a meteorological framework for reading the skies of landscape art compares Constable's skies to those produced by other artists from the middle ages to the nineteenth century analyses Constable's own meteorological understanding and examines the development of his painted skies In so doing he provides fresh evidence to identify the year of painting of some of Constable's previously undated cloud studies John Constable's Clouds.
