Wang, 2020-03-28 Since 1978 when China embarked on a new period of economic reforms and introduced open door policies it has experienced a great urban transformation The role of transport has proved indispensable in this unprecedented rapid urbanisation and economic growth As the first research focused book dedicated to this important topic the Handbook on Transport and Urban Transformation in China offers new insight into the various opportunities and challenges brought by fast paced motorization and urban development and explores them in broad spatial economic environmental social and institutional dimensions

*Insights on Resiliency and Urban Development* Sonet, Ungku Norani, Mari, Tamil Salvi, 2024-07-12 Cities worldwide are at a crossroads facing the pressing need to adapt to a rapidly changing environment The impacts of climate change economic shifts and population growth are undeniable demanding a paradigm shift in urban development The conventional approaches fall short in creating spaces that endure and flourish in the face of adversity The challenge is to reimagine cities as more than concrete jungles integrating green spaces flexibility and community well being into their DNA *Insights on Resiliency and Urban Development* charts the course for a resilient urban future In its pages government leaders architects urban planners and citizens unite to forge a comprehensive guide for developing urban sanctuaries This book seamlessly weaves together disciplines like architecture urban design planning sustainability and community development offering not just theoretical groundwork but practical strategies illustrated with vibrant case studies It empowers individuals with the knowledge to build cities that not only withstand the challenges of our time but actively thrive amidst them **Design Strategies for Efficient**

**and Sustainable Building Facilities** González-Lezcano, Roberto Alonso, Sansaniwal, Sunil Kumar, 2024-08-05 Despite the growing emphasis on energy efficiency in building design our indoor environments often fall short of providing optimal conditions for health and well being Indoor air quality temperature and lighting levels play crucial roles in occupant health yet they are frequently overlooked in building practices This oversight leads to environments that can harm health contributing to respiratory problems allergies and reduced productivity *Design Strategies for Efficient and Sustainable Building Facilities* offers a comprehensive solution We delve into recent advances in building design construction and operation that prioritize energy efficiency and occupant health By incorporating intelligent sensors automation systems and renewable energy sources like solar and wind power buildings can be transformed into healthy sustainable spaces that promote well being This book is tailored for researchers professionals university professors and master s and doctoral students who seek to advance sustainable building practices **The New Presence of China in Africa** Meine Pieter van

Dijk, 2009 This book describes China s growing range of activities in Africa especially in the sub Saharan region The three most important instruments China has at its disposal in Africa are development aid investments and trade policy The Chinese

government which believes the Western development aid model has failed is looking for new forms of aid and development in Africa China's economic success can partly be ascribed to the huge availability of cheap labour which is primarily employed in export oriented industries China is looking for the required raw materials in Africa and for new marketplaces Investments are being made on a large scale in Africa by Chinese state controlled firms and private companies particularly in the oil producing countries Angola Nigeria and Sudan and countries rich in minerals Zambia Third the trade policy China is conducting is analysed in China and compared with that of Europe and the United States In case studies the specific situation in several African countries is examined In Zambia the mining industry construction and agriculture are described One case study of Sudan deals with the political presence of China in Sudan and the extent to which Chinese arms suppliers contributed to the current crisis in Darfur The possibility of Chinese diplomacy offering a solution in that conflict is discussed The conclusion considers whether social responsibility can be expected of the Chinese government and companies and if this is desirable and to what extent the Chinese model in Africa can act as an example or not for the West Publisher's description

**Urban Planning and Everyday Urbanisation** Nadine Appelhans, 2016-12-15 Urbanisation in Bahir Dar Ethiopia poses challenges to urban living conditions Despite large scale

housing programmes from the side of the government construction and settling processes have largely remained incremental Nadine Appelhans focuses on the relation between statutory planning and practices of everyday urbanisation The findings from Bahir Dar suggest that some mundane regimes of building the city are patronised while others are considered undesired by policy makers Based on this insight the author argues that urban development in Bahir Dar needs to be locally grounded differentiated and inclusive to avoid further tendencies of segregation

**The Impact of Urbanization on Environment in Africa. The Case of Yeka Sub City, Addis Ababa** Fitsum Elias Awoke, 2020-08-31 Bachelor Thesis from the year 2019 in the subject Geography Earth Science Physical Geography Geomorphology Environmental Studies grade A Ethiopian Civil Service University College of Urban Development and Engineering course Research language English

abstract The general objective of this senior essay is to assess the impact that urbanization has brought to the environment in Yeka sub city The research is descriptive in its very nature Besides both quantitative and qualitative research approach is used Simple random sampling technique particularly lottery method is used to select samples from the total population Both primary and secondary data sources have been employed and questionnaire interview and observation are employed to collect the required data Furthermore quantitative i e descriptive statistics specially frequency distribution and percentage and qualitative i e verbal analysis or narration data analysis methods have been launched to analyze the collected data Data are mainly presented in tabular pictorial and textual form Continuous population growth in Yeka sub city resulted in the encroachment of forest land mostly through informal way and this resulted in the minimization of forest cover and the alteration of land use from natural forest into human made residential and other built up areas on a continuous manner Besides the formal settlement made by the legal allotment of land the informal settlement is very high and even difficult to control This indicates the high magnitude of urbanization in the sub city The main causes for the continuous urban population growth or urbanization are influx of people into the city of Addis Ababa ever increasing natural birth rate and reduced mortality rate The impact that urbanization has on the environment encompass deforestation land slide and soil degradation excessive waste generation and water and land pollution and air pollution Protecting agricultural and forest land as well as public open spaces from human settlement containing the growth of the sub city within limited square with the help of policy instrument that earmark regulatory environment restrict the geographic or spatial growth of the city facilitate the management of urban growth and protect preserve public open spaces and forest lands reducing the influx of people through the creation of equal development opportunities for all rural and urban centers and implementing family planning is compulsory and controlling informal settlement with a very strict regulatory environment is decisively needed

*Urban Growth in Ethiopia, 1887-1974* Getahun Benti, 2016 From the foundation of Finfinnee to the Italian occupation c 1887 1936 The growth of towns during the Italian occupation 1936 1941 New beginnings new challenges Urban growth 1941 1974 The demographics of Ethiopian towns and urban settlement patterns 1887 1974 Conclusion Big process little transformation

*Cities and agricultural transformation in Africa* Vandecasteele, Joachim, Tamru, Seneshaw, Minten, Bart, Swinnen, Johan, 2016-07-01 Due to the rapid growth of cities in Africa many more farmers are now living in rural hinterlands in relatively close proximity to cities where many provide food to urban residents However empirical evidence on how urbanization affects these farmers is scarce To fill this gap this paper explores the relationship between proximity to a city and the production behavior of rural staple crop producers In particular we analyze data from teff producing farmers in major producing areas around Addis Ababa the Ethiopian capital We find that farmers located closer to Addis Ababa face higher wages and land rental prices and because they receive higher teff prices they have better incentives to intensify production Moreover we observe that modern input use land and labor productivity and profitability in teff production improve with urban proximity This urban proximity has a strong and significant effect on these aspects of teff production possibly related to the use of more formal factor markets lower transaction costs in crop production and marketing and better access to information In contrast we do not find a strong and positive relationship between rural population density increases and agricultural transformation increased population density seems to lead to immiserizing effects in these settings Our results show that urban proximity should be considered as an important determinant of the process of agricultural intensification and transformation in developing countries

*Planning Cities in Africa* Genet Alem Gebregiorgis, Stefan Greiving, Ally Hassan Namangaya, Wilbard Jackson Kombe, 2022-08-18 This open access book provides insights into challenges threats and opportunities of urban development in Africa It discusses how and why African cities need localised urban planning concepts and theories to deal with challenges and threats of rapid urbanisation and climate change The book delivers an in depth view of the nature and gaps of the framework on which current planning practice and education in Africa are based With that it discusses the potentials of African cities to mobilise local knowledge resources and capacity building for sustained and resilient urban growth This work is addressed to educationists and practitioners in the field of urban development management climate change adaptation and urban resilience Specifically such audiences include researchers spatial planners graduate students and member of civil societies working on urban development management

**Urban Issues in Rapidly Growing Cities** Mintesnot Woldeamanuel, 2020-02-19 This book critically assesses the complex urban issues planning challenges and development opportunities of rapidly growing cities using Addis Ababa as a case study Just like other developing cities Addis Ababa is undergoing numerous natural and policy driven changes This book analyses the effect of these changes on urban management to allow better understanding of the conceptual frameworks that define the everyday functions of rapidly growing cities It demonstrates that rapid urban growth has simultaneously created opportunities for economic development in the developing world as well as social environmental and cultural challenges causing a mismatch between demand and the supply of services The author argues that by combining indigenous knowledge and practices and contemporary planning principles developing countries can overcome challenges concerning

environmental and public health transport congestion rising rents and house prices and lack of open space Foregrounding the experience of everyday citizens of the city this book aids our understanding of the nature of rapidly growing cities and outlines what needs to be done so that the city meets the needs of the people A unique contribution to the literature on cities of the developing world this book will be of interest to students and scholars of Urban Studies Planning Development Studies and African Studies

**Urban Infrastructure Research** Alok Tiwari,2016-02-24 This book reviews contemporary research on urban infrastructure in 76 Ethiopian cities It examines urban infrastructure issues in these cities and covers a wide range of topics from sustainability and smart cities to research methods employed by urban infrastructure investigators with regard to Ethiopian cities Research on urban infrastructure legitimacies and modalities has established its value worldwide in recent years though it is still fairly young in the Ethiopian context The first chapter outlines ongoing issues of debate concerning urban infrastructures including but not limited to discourses on sustainability smart cities innovative financing methods and potential partnerships Urban infrastructure issues in Ethiopian cities are examined in the second chapter while the third chapter presents a review of the most relevant literature for researchers Findings show that the citations in the research reports are mainly from the materials available over the internet including WHO UN Habitat and unpublished local materials The fourth chapter identifies patterns in the findings and recommendations of the research reports discussed The results reveal that there is a wider gap between supply and demand with regard to urban infrastructure in Ethiopian cities a situation that is further aggravated because of the growing urban population and already existing backlogs The fifth chapter reviews the essential methods employed by urban infrastructure investigators in Ethiopian cities In this regard the cross sectional study method with the use of survey method has been broadly adopted among investigators Lastly the book presents a summary and recommendations It was observed that the urban infrastructure boom in Ethiopia is primarily concentrated in the key cities and the current pattern of urban infrastructure provision does not incorporate the notion of sustainability Hence the book calls for setting the agenda of future research on urban infrastructure and services in Ethiopian cities together with the universities private sector and government who should ideally collaborate to produce the knowledge needed to improve quality of life welfare productivity and economic growth

**Cities of Change - Addis Ababa** Marc Angélil,Dirk Hebel,2016-05-23 Aiming to identify sustainable strategies rather than upholding an a priori vision of an ideal city the publication acknowledges the heterogeneous conditions of urban territories This revised edition highlights questions of method and procedure that can be transferred to other cities of change and covers recent developments such as the increasing influence of China in African countries or the chances of high density low rise developments
