**Managerial Economics and Organizational Architecture** James A. Brickley, Clifford W. Smith, Jerold L. Zimmerman, 2004 This approach to managerial

economics takes models from recent economic research and applies them to the internal structure of the firm After teaching basic applied economics the authors look inside the firm and apply this analysis to management decision making The general model used for this application is organizational architecture which consists of three aspects of corporate organization the assignment of decision rights within the company methods of rewarding individuals and the structure of systems to evaluate the performance of both individuals and business units These three elements must balance in an organization *The Making of Economic Society* Robert L. Heilbroner, William S. Milberg, 2002 With its roots in history and eyes on the future this book traces the development of our economic society from the Middle Ages to the present offering a balanced perspective of why our economy is the way it is and where it may be headed It explores the catalytic role past economic trends and dynamics particularly capitalism have played in creating the present challenges we face and offers suggestions on how we may deal with them most effectively in the future Chapter topics include the economic problem the premarket economy the emergence of market society the industrial revolution the great depression the rise of the public sector modern capitalism emerges in Europe the golden age of capitalism the rise and fall of socialism the globalization of economic life and why some nations remain poor For individuals interested in the economic history of the U S **Subject Guide to Books in Print**, 1997 **Small Economies and Global Economics** J. Ram Pillariseti, 2008 Small nations are facing increasing challenges and some new opportunities in a globalising world Although the problems facing small nations vary widely these economies tend to have several common concerns and opportunities The aim of this book is to disseminate knowledge and information about the challenges that small nations or groups of small nations are facing and how they are responding to the challenges posed by growing globalisation *Books in Print*, 1991 **Stock Trade in the Lebanese Emerging Market** Victor Bahous, 2005 **Managing Cities in Developing Countries** Meine Pieter van Dijk, 2006 Urban management is a relatively new topic which has gained increasing importance due to a rise in urbanization and a wave of decentralization programs in recent decades This innovative book is the first systematic treatment of the critical urban management issues facing developing countries The volume brings together a number of theoretical approaches and practical experiences in order to study the economic and financial aspects of urban management The author argues that urban managers have to make their cities more competitive via the new opportunities provided by decentralization and suggests that the formulation of a development strategy and the use of elements from new public management theory will improve urban governance and service delivery In addition emphasis is placed on the importance of involving different stakeholders which will lead to an integrated analysis of urban problems and therefore integrated solutions Related issues such as urban environmental sustainability and the role of modern information technology are also explored in detail The book concludes with a review of the emerging new themes at the forefront of contemporary urban management studies This important new volume will be an essential resource for students scholars and practitioners with an interest in urban planning development and management
