Math Trailblazers 2E G4 Teacher Implementation Guide, 2003 A research based NSF funded K5 mathematics program integrating math science and language arts Includes a Spanish translation of instructional units *Today's Mathematics, Concepts and Classroom Methods, and Instructional Activities* James W. Heddens, William R. Speer, 2005-04-11 From principles to practice all the tools you need to be an effective mathematics teacher Now combining theory methods and instructional activities in one convenient volume Heddens and Speer's Eleventh Edition of *Today's Mathematics* provides a valuable set of ideas and reference materials for actual classroom use The text will help you thoroughly understand what you need to teach to meet today's NCTM standards and how to present it in the most effective way possible This edition features a fully integrated CD of teacher resources With *Today's Mathematics 11e* you can Learn about contemporary philosophies and psychologies of learning teaching and assessing mathematics Explore the nature and scope of a beginning mathematics program for the primary grades Master the content strands commonly found in pre K Grade 8 mathematics curricula Examine the roles of problem solving decision making and communication in mathematics Discover effective ways to use tools such as calculators computers and technology in the classroom New virtual manipulatives CD The enclosed CD features a library of interactive web based manipulatives for mathematics instruction The CD also includes an overview of eight content strands a checklist of mathematical concepts organized by concept clusters several thematic mathematics activities and a vignette from the NCTM Also available from Wiley Jossey Bass *The Math Teacher's Book of Lists 2nd Edition* Judith A. Muschla Gary Robert Muschla ISBN 0 7879 7398 X [Mathematics Content for Elementary Teachers](#) Douglas K. Brumbaugh, Peggy L. Moch, Mary E. Wilkinson, 2004-09-22 THE book for elementary education mathematics content courses Designed to help prospective teachers of elementary school mathematics learn content beyond the rote level this text stimulates readers to think beyond just getting the problem right and fosters their development into thoughtful reflective self motivated life long learners It stresses the what and why of elementary school mathematics content Hints are provided about how to teach the content but this is mostly left to courses and texts that are dedicated to that purpose The text is organized around the National Council for Teachers of Mathematics Principles and Standards for School Mathematics The Standards dictate the basic sections of the text Within each section appropriate specific topics are developed intertwined with technology problem solving assessment equity issues planning teaching skills use of manipulatives sequencing and much more In addition major focal points of the Standards are emphasized throughout effective teachers of mathematics should be able to motivate all students to learn should understand the developmental levels of how children learn should concentrate on what children need to become active participants in the learning environment and should be engaged in ongoing investigations of new mathematical concepts and teaching strategies *Mathematics Content for Elementary Teachers* is based on several fundamental premises The focus of mathematics education should be on the process not the answer Elementary

teachers should know the mathematics content they are teaching know more than the content they are teaching and teach from the overflow of knowledge It is important for teachers to be flexible in allowing students to use different procedures teaching from the overflow of knowledge implies knowing how to do a given operation more than one way and being willing to examine many different ways Teachers need to learn to carefully cover the topics to be taught to reflect upon them and to be able to organize them To help prospective elementary teachers concentrate on the mathematics content they will be expected to teach and begin to build the foundation for the methods they will use this text includes only elementary mathematics content and does not address middle school concepts Pedagogical features The text is organized according to NCTM Standards An informal writing style speaks directly to readers and is geared to pre service teachers Focus is given to multiple methods of problem solving at four developmental levels Questions exercises and activities are interspersed throughout each section rather than gathered at the end of each chapter Complete solutions for exercises are provided

Homefires, 1999 *Helping Children Learn Mathematics* Robert E. Reys, Mary Lindquist, Diana V. Lambdin, Nancy L. Smith, 2008-12-15 The ninth edition of this best selling elementary math methods textbook continues the rich history of this book with a dash of new breath and a new contemporary design It has been updated to reflect current recommendations readings and practices while maintaining the characteristics and features that have made it a popular choice of instructors This new edition remains an invaluable text for students who are being introduced to teaching elementary mathematics In addition its depth also makes it appropriate for teachers to use as they continue to learn about teaching mathematics Publishers website *Strategies for Teaching Fractions* David B. Spangler, 2011-08-17 Any way you slice it fractions are foundational Many students struggle with fractions and must understand them before learning higher level math Veteran educator David B Spangler describes powerful diagnostic methods for error analysis that pinpoint specific student misconceptions and supplies specific intervention strategies and activities for each error pattern Aligned with NCTM and Common Core State Standards the research based targeted interventions for each error pattern promoted teaching for conceptual understanding Practical materials include Reproducibles for diagnostic tests Practice pages for exercises keyed to the diagnostic tests and error patterns Teacher resources for hands on activities game sheets and pieces and more
