Community Service-Learning Rahima C. Wade, 1997-01-01 Presents a comprehensive resource for those interested in youth involvement in community service as part of the public school curriculum **A Tale of Two Schools** Richard Donato, G. Richard Tucker, 2010-09-16 This volume documents a sixteen year longitudinal study of two elementary schools in which Spanish and Japanese foreign language programs were implemented and evaluated. Evaluation of the programs involved documenting children's language development assessing the attitudes of various constituents and examining critical issues related to the introduction and successful operation of a well articulated sequential foreign language program in schools. The volume concludes with a discussion of possible reasons why over time certain sequential foreign language programs flourish and grow while other programs are reduced or eliminated from the school's curriculum. Parallels with the theory and practice of environmental sustainable development are used as a framework for this analysis **New Perspectives and Issues in Educational Language Policy** Robert Leon Cooper, Elana Goldberg Shohamy, Joel Walters, 2001 This formidable selection of papers reflects the psycholinguistic and sociolinguistic underpinnings of the interface between language and education. Following an introduction that positions the field of educational linguistics historically and conceptually the volume presents 15 contributions by leading scholars that cover the four areas most central to the field: Language teaching, language learning and literacy, Widdowson, Bialystok, Cohen, Language testing, Bachman, Davies and Shohamy. Multilingualism, minority languages and language planning, Bratt, Paulston, Fishman, Lambert, Amara, de Bot. Language policy, Clyne, Tucker, Donato, Murday, McNamara, Lo, Bianco and Hornberger. *New Perspectives and Issues in Educational Language Policy* is published in honour of Bernard Dov Spolsky and reflects his impact on applied linguistics in general and educational linguistics in particular. The breadth and coverage makes this an indispensable title for future research in the field of educational linguistics
