**Bombers, Hijackers, Body Scanners, and Jihadists** Billie H. Vincent, 2012-11 In the timeline relevant to Billie H Vincent's watch terrorist attacks against world aviation are on the rise Vincent weaves his plot with the motives of these radicals their causes and the religious biases for extremist Islamic Jihadist attacks on a global scale to his protagonist's story Billie has his hands full dealing with these threats and helping out other nations in their aviation security efforts The threats and attacks in actual terms have left a permanent impact on Western society and aviation in particular Vincent knows all the ins and outs of the business His book is replete with all the hardcore technology that are an aficionado's dream the LED monitors light up the twilight world of the first line of defense for all airline passengers against all who might threaten the security of airports and airlines Billie and an international company of aviation security experts come up against the attempted bombing of an international Pan American Airlines flight to Rio de Janeiro Over the previous two weeks they had been investigating a bomb that exploded on a flight out of Tokyo's Narita airport that killed a Japanese youth going to a vacation in Hawaii Vincent faces a new generation of terrorists of the era bombs sneaked in a variety of ingenious ways into the planes and terminals abound in this dangerous world Will he and his elite profession of dedicated men and women be able to stand up against all aviation security threats The answer is they will have to because the lives of innocents are at stake Billie shows readers exactly how in this gripping *Bombers Hijackers Body Scanners And Jihadists* Islamic Violence in America's Streets Ronald K. Pierce, 2014-08-06 The growth of Islam in the United States looks much like an invasion with the Muslim population numbering more than three million Mosques in the United States number more than two thousand and growing rapidly In *Islamic Violence in America's Streets* author Ronald K Pierce offers a clear and balanced discussion that explores the many aspects of Islam as it has and will affect the American experience *Islamic Violence in America's Streets* describes the significant dangers America faces from this ideology religion that seeks to dominate America It Reviews what Islam is how it operates and why it has been successful in attracting followers Looks at the impact the movement has had and is having on the Middle East South Asia and Europe Discusses Sharia law which is a vital underpinning to Islamic success and why it is so critical it not be introduced into the United States Shares stories of those who have left the religion in many cases in the face of great danger and why Examines the threat to America and what actions can be taken to reduce or eliminate that threat Pierce shows why the threat to the United States is urgent He calls on citizens and Congress to understand it and take action to defuse it *The Age of Lone Wolf Terrorism* Mark S. Hamm, Ramón Spaaij, 2017-05-09 The lethality of lone wolf terrorism has reached an all time high in the United States Isolated individuals using firearms with high capacity magazines are committing brutally efficient killings with the aim of terrorizing others yet there is little consensus on what connects these crimes and the motivations behind them In *The Age of Lone Wolf Terrorism* terrorism experts Mark S Hamm and Ramón Spaaij combine criminological theory with empirical and ethnographic research to map the pathways of

lone wolf radicalization helping with the identification of suspected behaviors and recognizing patterns of indoctrination Reviewing comprehensive data on these actors including more than two hundred terrorist incidents Hamm and Spaaij find that a combination of personal and political grievances lead lone wolves to befriend online sympathizers whether jihadists white supremacists or other antigovernment extremists and then announce their intent to commit terror when triggered Hamm and Spaaij carefully distinguish between lone wolves and individuals radicalized within a group dynamic This important difference is what makes this book such a significant manual for professionals seeking richer insight into the transformation of alienated individuals into armed warriors Hamm and Spaaij conclude with an analysis of recent FBI sting operations designed to prevent lone wolf terrorism in the United States describing who gets targeted strategies for luring suspects and the ethics of arresting and prosecuting citizens Congressional Record United States.
