O. Hall,G. W. Barnard,P. A. Moss,2013-10-22 Biomass for Energy in the Developing Countries Current Role Potential Problems Prospects focuses on biomass energy and its importance to developing countries This book outlines the reality that supply can no longer meet the demand of this form of energy This fact is particularly observed in the rising price of oil which is a prime source of energy for developing countries Relative to this a need to look for indigenous energy sources is urgent to sustain development in these countries This book emphasizes that biomass energy utilization differs among developing countries which shows the variance in energy needs This text also notes that the pattern of biomass energy use in such countries is related to agriculture and also has cultural economic and social linkages Biomass energy is also considered an important aspect in rural development and as a replacement for petroleum products With the impending shortage of biomass energy schemes are now being developed to sustain the use of this energy in household and industry settings which is emphasized in the development of

equipment considered energy efficient People who are concerned with the development and implementation of programs aimed at conserving biomass energy and in the search of alternative energy can use this book as a reference

**Small Scale Industry in Kenya** Peter Kilby,1982 Extract This study treats small scale industry in Kenya It is common wisdom that small production units possess a number of virtues and that special effort is warranted to promote the growth of this subsector Such a view is acceptable but in need of some refinement It is the argument of this paper that for each country there exists an optimum size distribution of firms This optimum is determined at any point in time by technological factors and by the pattern of demand Owing to market imperfections and government policies that are biased with respect to scale observed shares of output and employment in many underdeveloped countries are heavily skewed toward large scale enterprise This malproportionality is strikingly evident in the case of Kenya
