- The clock seemed to slow as I thought of her. I knew what she would say.
- It was the kind of night I knew I would remember for the rest of my life.
- As he stepped off the train, a wave of panic seized him.
- "I'm afraid there's nowhere else to go from here," he said.
- "I see so much of myself in you," she said quietly. "It frightens me."
- The car skidded to a stop, and she threw open the door angrily. "Well, that was a colossal waste of time."
- No one made a sound. Angela was certain she'd never heard a silence so silent before.
- "Where are you going?" he asked. "Anywhere that isn't here," she said.
- David hadn't lied, per se, he reasoned... he'd simply massaged the truth.
- She opened the door and stepped inside. There was no going back now.
- The old man's hand was leathery and worn. His fingers bore the deep crevices and cracks that only come with age.
- She click-clack-clicked down the hallway, each step echoing out a cry of "I am here! I am here!"
- Sometimes when I was young I would sit and wonder where the stars went when each night ended. When I learned that they never truly go away, I realized the answer I'd really been searching for all along.
- His eyes lit up like the Fourth of July. "Let's go!"
- "This isn't the right time," I said. "Will it ever be?" she asked.
- He stepped in the room, and the crowd immediately began to cheer. He knew it was the greatest feeling he would ever experience.
- "Take a right at the first turn, then go another two miles and take a left when you see the big willow tree," he said. "Go another half mile or so, and it will be on your right. You'll know when you're there."
- As we walked down the street and turned the corner, I suddenly knew that we'd made the right choice.
- "Well," Morgan said with a smile. "I guess there's only one way to find out!"
- I'd never gone out of the country before—and this was hardly an ideal way to start.
- "I hope you don't think this is a game," I said roughly. "Because it's far from it."
- With the way the street looked that night as the stars shone down, I almost felt like I could learn to love living there forever. Almost.

M. Crane,2017-06-20 This book has been written with the fiction writer in mind It teaches writers through writing each day of the year on a subject of their choice how to use description narrative and character development Each of the exercises is simple to follow and gives scope to the writer to follow their own style Writers are encouraged to use their imagination to enjoy the challenge of writing stories on given topics There is a good variety of subjects and much is speculative thus leaving the writer free to tackle the story in the manner he she wants although one section does encourage the use of first person narrative Through the different subjects writers are encouraged to use adjectives and to close their eyes and imagine the characters of their stories so that they can present them in full color and

with atmosphere to readers Throughout the book different interests are covered and writers don t have to take the obvious route We encourage writers to take it a step further and conjure up their own ideas and make these come to life on the page As they progress they will learn about how to incorporate Descriptions Colors Words that sound alike Narrative Atmospheres Since each page allows writers the space to write out their story in journal format we would suggest that writers use a notebook to gather together ideas before writing thus having a direction for the story This is particularly relevant in Twist in the Tail stories which lead to a surprising conclusion Fiction strategy includes the following elements Character development using familiar people as models for their characters Twists and turns to surprise readers Excitement and tense drama The writing prompts give writers sufficient information to be able to come up with stories and the angle that they approach their story writing from should always be left to the writer as an individual choice The writing prompts help the writer to create atmosphere tension and twists and turns in their plot construction all of which are important to writers in the fiction area The book also contains popular genres such as erotica mystery and suspense murder romance and love and all of the styles that are currently being sought by publishing companies It s a good idea to practice because this highlights a writer s strengths and weaknesses and will usually dictate the kind of genre that a writer will choose as his trademark to success
