American Cars, 1973-1980 J. "Kelly" Flory, Jr., 2012-11-14 The 1973 oil crisis forced the American automotive industry into a period of dramatic change marked by stiff foreign competition tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin muscle cars and the massive need for speed engines of the late 60s were out and fuel efficient compacts were in. By 1980 American manufacturers were churning out some of the most feature laden yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980 including various captive imports e.g. Dodge's Colt built by Mitsubishi. Within each model year it reports on each manufacturer's significant news and details every model offered its specifications powertrain offerings prices standard features major options and production figures among other facts. The work is heavily illustrated with approximately 1 300 photographs.

American Cars, 1966-1972 J. "Kelly" Flory, Jr., 2023-11-27 The automotive industry underwent great change in the 1960s and the early 1970s. This is an exhaustive reference work to American made cars of model years 1966-1972. Organized by year and summarizing the market annually it provides a yearly update on each make's status and production figures then details all models offered for that year. Model listings include available body styles base prices engine and transmission choices power ratings standard equipment major options and their prices curb weight and dimensions interior and exterior paint color choices changes from the previous year's model and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate.
