Medieval Scandinavia From Conversion To Reformation Circa 80150nordic Series:

Medieval Scandinavia Birgit Sawyer,1993 The study of Scandinavia has been and still is deeply influenced by the interpretation of its earliest history that was developed in the 19th century by political legal and literary historians archaeologists and anthropologists Scandinavia figured prominently in discussions of early medieval Europe not only as the homeland of the Vikings but also as the region in which Germanic society remained uncontaminated by Christianity and other influences longer than anywhere else In Medieval Scandinavia Birgit and Peter Sawyer question assumptions about early Scandinavian history including the supposed leading role of free and equal peasants and their position in founding churches They meticulously trace the development of Scandinavia from the early ninth century through the second and third decades of the 16th century when rulers of Scandinavia rejected the authority of the Papacy and the attempt to establish a united Scandinavian monarchy finally collapsed The authors include a discussion of medieval history writing and comment on the use of history in the 16th century and modern attitudes to medieval history which differ in various parts of Scandinavia They ultimately conclude that historic Scandinavia held greater similarities to other European regions than has been commonly supposed Birgit Sawyer is one of the founders of the biennial interdisciplinary conferences on women in medieval

Europe's military and religious conquest and colonization of the region Anders Winroth contends that rather than acting as passive recipients Scandinavians converted to Christianity because it was in individual chieftains political economic and cultural interests to do so Through a painstaking analysis and historical reconstruction of both archeological and literary sources and drawing on scholarly work that has been unavailable in English Winroth opens up new avenues for studying European ascendency and the expansion of Christianity in the medieval period *Snorri Sturluson and the Edda* Kevin J. intellectual culture in Scandinavia and the remarkable longevity of local beliefs even into the early post Reformation period

The Viking Age as a Period of Religious Transformation Sæbjørg Walaker Nordeide, 2011 70 b w illus 14 b w tbls 14 b w line art *Conversion and Identity in the Viking Age* Ildar H. Garipzanov, Rosalind Bonté, 2014 This volume presents a state of the art collection of essays on the socio cultural aspects of the conversion to Christianity in Viking Age Scandinavia and the Scandinavian colonies of the North Atlantic The nine scholars drawn from the disciplines of history archaeology and literary studies have been brought together to address the overarching topic of how conversion affected peoples identities both as individuals and as members of broader religious political and social groups on either side of the divide between paganism and Christianity Central to this exploration is the question of how existing and changing identities shaped the progress of conversion as a process of societal and more specifically cultural change Each of the papers in this volume provides examples of the complicated patterns of interaction influence and identity modification that were characteristic of the transition from paganism to Christianity in the Viking world The authors look for new ways of understanding and describing this gradual intermingling between the two fuzzy edged religious communities and they provide a challenging redefinition of the nature of conversion in the Viking Age that will be of interest both to a wide variety of medievalists and to all those who work on conversion in its theoretical and historical aspects
