Matric Re Writing Schools And Colleges In Durban:

Race in Education Gerhard Mare, 2019-05-31 There is global evidence that the ghostly notions of essentialist differences between human groups continue to haunt in various forms. People draw upon ideas of religion, race, ethnicity, gender, and sexuality, and nation to draw distinctions. Racism, xenophobia, sexism, and right wing populism are ongoing and increasing phenomena. In addition, genetic science has introduced new forms of evidence which lends itself to misuse to confirm common sense perceptions. The valuable contributions of the authors in this publication not only warn against such notions but offer ways of exploring, exposing, and challenging the ghosts and the fears engendered through their contemporary forms.

In Search of a Pedagogy of Conflict and Dialogue for Mathematics Education Renuka Vithal,2012-12-06 In Search of a Pedagogy for Conflict and Dialogue for Mathematics Education is of interest to mathematics educators, researchers in mathematics education, gender, social justice, equity, and democracy in education, and practitioners, teachers interested in the use of project work in mathematics teaching and learning. This book brings together diverse recent developments exploring social, cultural, political dimensions in mathematics education. It builds theoretical ideas from a careful, substantial description of practice in the attempt to improve both theory and practice in mathematics education. In doing so, it interrogates and develops theoretical research tools for mathematics education and simultaneously provides ideas for practice in mathematics classrooms.
