Waste Works Brenda Chalfin, 2023-03-06 In Waste Works Brenda Chalfin examines Ghana's planned city of Tema theorizing about the formative role of waste infrastructure in urban politics and public life Chalfin argues that at Tema's midcentury founding a prime objective of governing authorities was to cultivate self-contained citizens by means of tightly orchestrated domestic infrastructure and centralized control of bodily excrement to both develop and depoliticize the new nation Comparing infrastructural innovations across the city Chalfin excavates how Tema residents pursue novel approaches to urban waste and sanitation built on the ruins of the inherited order profoundly altering the urban public sphere Once decreed a private matter to be guaranteed by state authorities excrement becomes a public issue collectively managed by private persons Pushing self-care into public space and extending domestic responsibility for public well-being and bodily outputs popularly devised waste infrastructures are a decisive arena to make claims build coalitions and cultivate status Confounding high modernist ideals excremental infrastructures unlock bodily waste's diverse political potentials

People - Marine Mammal Interactions Andrew Butterworth, Mark P. Simmonds, 2017-08-15 Our relationships with marine mammals are complex We have used them as resources and in some places this remains the case viewed them as competitors and culled them again ongoing in some localities been so captivated and intrigued by them that we have taken them into captivity for our entertainment and developed a lucrative eco-tourism activity focused on them in many nations When we first envisaged this special topic we had two overarching aims Firstly we hoped to generate critical evaluation of some of our relationships with these animals Secondly we hoped to attract knowledgeable commentators and experts who might not traditionally

publish in the peer reviewed literature We were also asking ourselves a question about what responsibility mankind might have to marine mammals on our rapidly changing planet The answer to the question can or should humans have responsibility for the lives of marine mammals when they are affected by our activities is in our opinion yes and the logical progression from this question is to direct research and effort to understand and optimise the actions reactions and responses that mankind may be able to take We hope that the papers in this special issue bring some illumination to a small selection of topics under this much wider topic area and prove to be informative and stimulating Canadian Journal of Earth Sciences ,2013 **International Books in Print** ,1997 Who's Who in the West, 1996-1997 Marquis Who's Who,Marquis Who's Who Staff,1995-11 **Forthcoming Books** Rose Arny,1983 **Author Index to Psychological Index ... and Psychological Abstracts** ... ,1960 13+ Science Level 2 Biology Mark Scheme (Summer Term 2013) Iseb Iseb,2013-03-21 13+ Science Level 2 Biology Mark Scheme (Spring Term 2013) Iseb Iseb,2012-12-01 **13+ Science Level 2 Biology Mark Scheme (Autumn Term 2013)** Iseb Iseb,2013-09-26 13+ Science Level 2 Biology Mark Scheme (Spring Term 2014) Iseb Iseb,2013-11-29 **13+ Science Level 2 Biology Mark Scheme (Summer Term 2014)** Iseb Iseb,2014-03-28
