Life Orientation Grade 11 Final Examination 2013:

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02

South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

From Predator to Prey Letlhokwa George Mpedi, 2025-10-31 In the stillness of the African bush leadership reveals itself in its most primal form. Here where the survival of each species depends on discipline, instinct, coordination and trust, its lessons arise from the most unexpected sources. For Letlhokwa George Mpedi a journey through South Africa's Kruger National Park transformed from merely a game drive to a masterclass in leadership. Observing the intricate dynamics of animal behaviour, Letlhokwa began to trace compelling parallels between the natural order and human systems of power. Through this lens, this book explores how nature's codes can inform leadership dynamics. Drawing from a distinctly African approach to leadership which emphasises community and interdependence, *From Predator to Prey* explores the unwritten rule of law that governs the wild and its applications for humanity. From the silent cooperation of lionesses on a hunt to the matriarchal approach of elephants and even the territorial instincts of wild dogs, this book offers a vivid and thought-provoking perspective on how nature's instincts can inform our understanding of leadership dynamics. As Letlhokwa tracks and interprets the behaviours and strategies of various species, he challenges conventional ideas of leadership based solely on top-down control. Through this observation, he invites a critical rethinking of conventional leadership paradigms. In place of rigid hierarchies, he presents a model that values the very tenets of ubuntu leadership as he offers a compelling argument for leadership rooted in nature's enduring logic. Letlhokwa George Mpedi is a Professor of Labour and Social Security Law and the Vice Chancellor and Principal of the University of Johannesburg (UJ). He completed his B Juris degree in 1996 and LLB degree in 1998 at Vista University. In 2001 the LLM degree in Labour Law was conferred upon him by the then Rand Afrikaans University, now UJ, and the LLD degree in Mercantile Law was conferred upon him in 2006 by UJ.
