Lesson 1: National Incident Management System (NIMS) Overview

The National Incident Management System, or NIMS, provides the foundation needed to ensure that we can work together when our communities and the Nation need us the most. NIMS also:

- Integrates best practices into a comprehensive, standardized framework.
- Is applicable and flexible enough to be applicable across the full spectrum of potential incidents, regardless of cause, size, location, or complexity.
- Is based on best practices collected from all levels of responders

Using NIMS allows us to work together to prepare for, prevent, respond to, recover from, and mitigate the effects of incidents.

The benefit of NIMS is that it provides a consistent nationwide template or organizational structure to enable and improve integration among jurisdictions and disciplines at Federal, State, tribal, and local governments, nongovernmental organizations, and the private sector to work together to prevent, protect against, respond to, recover from, and mitigate the effects of incidents regardless of cause, size, location, or complexity in order to reduce the loss of life and property and harm to the environment.

What NIMS is Not:

NIMS is *not* an operational incident management or resource allocation plan.

HSPD-5, Management of Domestic Incidents

Homeland Security Presidential Directive (HSPD) 5, "Management of Domestic Incidents," directed the Secretary of Homeland Security to:
- Develop and administer a National Incident Management System (NIMS).
- Develop the National Response Framework (NRF).
