## Geography Exemplar Paper November 2013:

**Wealth, Poverty and Politics** Thomas Sowell, 2016-09-06 In *Wealth Poverty and Politics* Thomas Sowell one of the foremost conservative public intellectuals in this country argues that political and ideological struggles have led to dangerous confusion about income inequality in America. Pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality: the production of wealth. We cannot properly understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography, demography, and culture. Sowell contends that liberals have a particular interest in misreading the data and chastises them for using income inequality as an argument for the welfare state. Refuting Thomas Piketty, Paul Krugman, and others on the left, Sowell draws on accurate empirical data to show that the inequality is not nearly as extreme or sensational as we have been led to believe. *Transcending partisanship through a careful examination of data*, *Wealth Poverty and Politics* reveals the truth about the most explosive political issue of our time.

**Spirits and Ships** Andrea Acri, 2017-03-13 This volume seeks to foreground a borderless history and geography of South, Southeast, and East Asian littoral zones that would be maritime-focused and thereby explore the ancient connections and dynamics of interaction that favoured the encounters among the cultures found throughout the region stretching from the Indian Ocean littorals to the Western Pacific. From the early historical period to the present, transcending the artificial boundaries of macro regions and nation states and trying to bridge the arbitrary divide between inherently cosmopolitan high cultures (e.g. Sanskrit, Sinitic, or Islamic) and local or indigenous cultures, this multidisciplinary volume explores the metaphor of Monsoon Asia as a vast geo-environmental area inhabited by speakers of numerous language phyla which for millennia has formed an integrated system of littorals where crops, goods, ideas, cosmologies, and ritual practices circulated on the sea routes governed by the seasonal monsoon winds. The collective body of work presented in the volume describes Monsoon Asia as an ideal theatre for circulatory dynamics of cultural transfer, interaction, acceptance, selection, and avoidance, and argues that despite the rich ethnic, linguistic, and sociocultural diversity, a shared pattern of values, norms, and cultural models is discernible throughout the region.

**Towards Good Order at Sea** Thomas Mandrup-Francois, 2015-03-01 The problems originating from the resultant bad order at sea can be directly felt on land when smuggling, terrorism, and related criminal activities operate more or less unhindered. The book provides an important mapping of the challenges preventing good order at sea off the African coast and East Africa, in particular. Rear Admiral N. Wang, Commandant, Royal Danish Defence College.
