Ancient Perspectives Richard J. A. Talbert, 2014-02-14 Contains must read essays for all those interested in the history of these earliest forms of cartography A truly wonderful read John Hessler Library of Congress The Portolan Ancient Perspectives encompasses a vast arc of space and time Western Asia to North Africa and Europe from the third millennium BCE to the fifth century CE to explore mapmaking and worldviews in the ancient civilizations of Mesopotamia Egypt Greece and Rome In each society maps served as critical economic political and personal tools but there was little consistency in how and why they were made Much like today maps in antiquity meant very different things to different people Ancient Perspectives presents an ambitious fresh overview of cartography and its uses The seven chapters range from broad based analyses of mapping in Mesopotamia and Egypt to a close focus on Ptolemy s ideas for drawing a world map based on the theories of his Greek predecessors at Alexandria The remarkable accuracy of Mesopotamian city plans is revealed as is the creation of maps by Romans to support the proud claim that their emperor s rule was global in its reach By probing the instruments and techniques of both Greek and Roman surveyors one chapter seeks to uncover how their extraordinary planning of roads aqueducts and tunnels was achieved Even though none of these civilizations devised the means to measure time or distance with precision they still conceptualized their surroundings natural and man made near and far and felt the urge to record them by inventive means that this absorbing volume reinterprets and compares *Maps: Ancient Civilization, Gr. 4-6, eBook* Vicki Martens, 18 maps and related activities perfect for teaching upper graders to read and understand maps Meets map standards for fourth through sixth grades [Ancient Civilizations Map Laminated](#) Gm150, 2002-02 **The Penguin Historical Atlas of Ancient Civilizations** John Haywood, 2005-10-25 The Penguin Historical Atlas of Ancient Civilizations explores the world s earliest cultures from the farming settlements of Mesopotamia to the Americas and Polynesia via the birth of Greek city states and the foundation of Rome It examines the development of civilizations in the Near East Babylonian Assyrian Persian as well as those in Europe the Minoans Etruscans and Celts Across the continents of Africa Asia and America it covers such subjects as Egypt from its pre dynastic roots to the age of the Pharaohs China during the Shang and Zhou dynasties and the great cities of the Incas and Aztecs Vivid descriptions of civilizations are complemented by discussion of such key topics as colonization agriculture and technology and the rise of empires and city states Richly illustrated with timelines photographs artwork re creations and full colour maps this is an illuminating and multi faceted one volume introduction to early peoples and the worlds they created Back cover **Maps of the Ancient Sea Kings** Charles H.
