this collection the editors offer fourteen original essays that seek to examine and re examine Ellison s life and work in the context of its meanings for our own age the early twenty first century the age of Obama a period that is seemingly post racial and yet all too acutely racial Following a careful introduction that situates Ellison s writings in the context of new approaches and interest in his work the book offers new essays examining Ellison s 1952 masterpiece *Invisible Man* It then turns to his vast unfinished second novel *Three Days Before the Shooting* with detailed readings of that powerful and elusive narrative These essays are the first sustained treatments of that posthumous work *The New Territory* concludes with five chapters that discuss Ellison s political cultural and historical significance probing how he speaks to the contemporary moment and beyond
