## **Iran International Report Deal Interest:**

**Iran's Foreign Policy** Masoud Kazemzadeh, 2020-11-25 This book analyzes both domestic and international factors that have influenced Iran's foreign policy since 1979. It looks not only at the perspectives of the ruling elite but also of civil society and opposition groups. Furthermore, it also analyzes the interactions among Iran's policies and those of regional and global powers. Since the 1979 revolution, Iran's foreign policy has appeared both threatening and puzzling. Some have described it as ideological, whereby the regime has been attempting to export its Islamist rule to neighbouring countries and challenging the international order. Others consider Iran's foreign policy to be primarily pragmatic, concerned with survival of the regime and expanding its power, not unlike other powers in the system. This book attempts to go deeper than most conventional analyses. It demystifies Iran's foreign policy by describing in great detail foreign policy decision making in Iran. Iran is not a one-man dictatorship. Rather, it is ruled by an oligarchy of Shia fundamentalists. The regime's ideology has not been cohesive, nor has it remained consistent in the past 41 years, nor all members of the ruling oligarchy have articulated an identical version of it. The book describes foreign policies of various factions and their leading figures, as well as analysing their evolutions since 1979. It explains how various intra-elite configurations of power have influenced the regime's foreign policy regarding the nuclear weapons program and the relations with the United States.

**Iran's Foreign Policy: Elite Factionalism, Ideology, the Nuclear Weapons Program, and the United States** adds fresh and critical perspectives on scholarly and policy debates on Iran's foreign policy. The chapters in this book were originally published in the following journals: *Comparative Strategy*, *American Foreign Policy Interests*, and the *Terrorism Law Report*. *Daily Report*, 1995. *India-Iran Relations* Sujata Ashwarya, 2017-04-21. This book examines India's relationship with Iran since the post-World War II period and its unique search for meaningful bilateral ties in the West Asian region in the context of the changing regional and international scenarios. The four chapters highlight the achievements and constraints on the development of Indo-Iranian relations during the Cold War era, opportunities and limitations in bilateral engagements between India and Iran in the aftermath of the Cold War, impact of the US factor on the development of crucial Indo-Iranian energy ties, and the limitation imposed by India's relations with Israel and Saudi Arabia on the India-Iran ties. More specifically, the four chapters touch on the central drivers: energy imports, access to Central Asia, cooperation in Afghanistan, mutual trade and economic investments, and security ties of India's Iran policy, and how they structure India's interaction with the other countries of the region and impact on the articulation of national interests. Combining a rich interplay of facts and figures with nuanced analyses, this volume will be a valuable resource for scholars, policymakers, diplomats, and any interested reader desirous of knowing more about Indo-Iranian relations in particular and India's West Asia policy in general. Please note: Taylor Francis does not sell or distribute the hardback in India, Pakistan, Nepal, Bhutan, Bangladesh, and Sri Lanka. *Monthly Catalogue, United States Public Documents*, 1981. Post-Soviet Era Shireen T. Hunter, 2010-05-20 A comprehensive exploration of postrevolution Iranian foreign policy analyzes the country's relations with key nations and regions and the impact of both Iran's domestic situation and the developing global system Iran's Foreign Policy in the Post Soviet Era Resisting the New International Order provides the first truly comprehensive in depth survey of Iranian foreign policy issue by issue and country by country since the Islamic Revolution To help readers understand both the what and the why of Iran's role in the world and formulate useful responses to that role the author provides a detailed analysis of Iranian foreign policy in all its dimensions The first part of the book places Iranian actions particularly its relations with the United States and other key players within the context of the emerging international system while also showing how domestic developments impact foreign policy The second part surveys Iranian relations with specific actors notably the United States and Russia and with key regions including Europe Central Asia the Arab world Latin America and Africa Providing an antidote to existing preconceptions this incisive analysis lays an analytically sound basis for shaping policies toward Iran policies with potentially high payoff in terms of regional security and stability
