## Geography Memorandum Paper 1 September 2014:

**Law and Regulation of Mobile Payment Systems** Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa. In Kenya the introduction of M-Pesa a new financial services model has transformed the banking and financial services industry. Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts. This book addresses the legal and regulatory issues arising out of the introduction of M-Pesa in Kenya and its drive towards financial inclusion. It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools, institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity. This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion. It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments. The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya.

Cash Not Care Mo Stewart, 2016-09-14 Mo Stewart is a former healthcare professional, a disabled female veteran and an independent researcher. This book is the culmination of six years of self-funded research and the evidence exposes the influence of corporate America since 1992 with the future welfare reforms of the UK. The impact of the enforced austerity measures of the UK government is identified as they negatively affect the welfare and the survival of the chronically sick and disabled population in receipt of welfare benefits when unfit to work. The research has informed welfare reform debates in the House of Lords and the House of Commons since 2011 and contributed to the evidence used by the United Nations to investigate the UK government for breaches of the Human Rights of sick and disabled people. Endorsed by the disabled community and by academics the research has identified the adoption of lethal social policies copied from American social security policies and linked to the death of thousands of the most vulnerable of all as the UK welfare state is systematically demolished as all planned over thirty years ago by a previous Conservative government.

**The Drone Memos** Jameel Jaffer, 2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists including US citizens. Publishers Weekly starred review. In the long response to 9/11 the US government initiated a deeply controversial policy of targeted killing, the extrajudicial execution of suspected terrorists and militants typically via drones. A remarkable effort was made to legitimize this practice one that most human rights experts agree is illegal and that the United States has historically condemned. In *The Drone Memos* civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action. In a lucid and provocative introduction Jaffer who led the ACLU legal team that secured the release of many of the documents evaluates the drone

memos in light of domestic and international law He connects the documents legal abstractions to the real world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security A careful study of a secretive counterterrorism infrastructure capable of sustaining endless orderless war this book is profoundly necessary Katrina vanden Heuvel editor and publisher of The Nation

The Rise and Rise of Illegal Ticket Touting Alessandro Moretti,2023-02-10 This book presents an ethnographic study of contemporary ticket touts in the UK Despite the recent interest in the topic of black market ticket sales media coverage and parliamentary interventions over the last ten years have revealed a widespread lack of knowledge with regard to the phenomenon of touting and the players engaging in the practice The Rise and Rise of Illegal Ticket Touting sheds light on the world of touting and delivers an authentic picture of the individuals involved of their methods values and motivations for performing ticket touting as an organised entrepreneurial deviant activity The touts varied methods of buying and selling tickets the hierarchical structures and strict ethos of their criminal organisations and their specific modi operandi for evading detection and arrest both on the streets and online are focal points of the study Of equal importance are the touts attitudes perceptions and adaptations to or outright dismissal of society s legal and moral frameworks This book illuminates why historic and renewed attempts to challenge ticket touting have been unsuccessful focusing on inadequate legislation a lack of enforcement and the widespread corruption and exploitable loopholes that exist within the official primary ticket market An accessible and compelling read The Rise and Rise of Illegal Ticket Touting will appeal to students and scholars of criminology sociology social policy policing and all those with an interest in live music and sport and the hidden practices that lurk beneath the surface

**Migranthood** Lauren Heidbrink,2020-04-28 Migranthood chronicles deportation from the perspectives of Indigenous youth who migrate unaccompanied from Guatemala to Mexico and the United States In communities of origin in Guatemala zones of transit in Mexico detention centers for children in the U S government facilities receiving returned children in Guatemala and communities of return young people share how they negotiate everyday violence and discrimination how they and their families prioritize limited resources and make difficult decisions and how they develop and sustain relationships over time and space Anthropologist Lauren Heidbrink shows that Indigenous youth cast as

objects of policy not participants are not passive recipients of securitization policies and development interventions Instead Indigenous youth draw from a rich social cultural and political repertoire of assets and tactics to navigate precarity and marginality in Guatemala including transnational kin social networks and financial institutions By attending to young people's perspectives we learn the critical roles they play as contributors to household economies local social practices and global processes The insights and experiences of young people uncover the transnational effects of securitized responses to migration management and development on individuals and families across space citizenship status and generation They likewise provide evidence to inform child protection and human rights locally and internationally *The Life of Permafrost* Pey-Yi Chu,2020-12-07 In the Anthropocene the thawing of frozen earth due to global warming has drawn worldwide attention to permafrost Contemporary scientists define permafrost as ground that maintains a negative temperature for at least two years But where did this particular conception of permafrost originate and what alternatives existed The Life of Permafrost provides an intellectual history of permafrost placing the phenomenon squarely in the political social and material context of Russian and Soviet science Pey Yi Chu shows that understandings of frozen earth were shaped by two key experiences in the Russian Empire and the Soviet Union On one hand the colonization and industrialization of Siberia nourished an engineering perspective on frozen earth that viewed the phenomenon as an aggregate physical structure ground On the other a Russian and Soviet tradition of systems thinking encouraged approaching frozen earth as a process condition and space tied to planetary exchanges of energy and matter Aided by the US militarization of the Arctic during the Cold War the engineering view of frozen earth as an obstacle to construction became dominant The Life of Permafrost tells the fascinating story of how permafrost came to acquire life as Russian and Soviet scientists studied named and defined it
